☐ ☒ 12. There is a pattern of prior investigations and/or behavior that suggests an escalating threat to child safety.

☐ ☒ 13. Other (specify)

If no immediate harm factors are observed, proceed to Section 3

Section 2: Safety Interventions

If no immediate harm factors are present, go to Section 3. If one or more immediate harm factors are present, consider whether safety interventions one through eight will allow the child to remain in the home for the present time. Check the item umber for all safety interventions that will be implemented. If there are no available safety interventions that would allow the child to remain in the home, indicate by checking item nine or ten, and follow procedures for initiating a voluntary agreement or taking the child into protective custody. Mark all that apply:
