Tennessee Child Abuse Hotline Summary

History (not listed above): ASMT [redacted] ENN, LOS/Services Recommended and Accepted (ENN), No Services Needed (LOS)/12-28-2016 (only [redacted] involved)

Pending: No
Awaiting Screening: No
Submitted: No

County: [redacted]
Notification: Email
School/ Daycare: Unknown
Native American Descent: No
Active Military: Unknown
Directions: None provided

Reporter's name/relationship: [redacted]

Reporter states:

[redacted] (4 mos) lives with his mother, [redacted] his father, Unknown, his maternal grandmother, [redacted] (44), and [redacted] paramour, [redacted] in [redacted] County; also in the home is his cousin, Unknown (2), his maternal aunt, Unknown, and the aunt's paramour, Unknown. It is possible that other individuals live in the home but their information is unknown. [redacted] has previously been treated at the [redacted] Emergency Room for mental health and stability but it is unknown if anyone else involved has any special needs or disabilities.

At 9:20 AM CST on 3/5/2018, [redacted] was transported via EMS to the [redacted] Emergency Room due to being unresponsive with agonal breathing. Upon arrival, [redacted] was near death: his skin was cool to the touch, his rectal temperature was 95.1 °F and his blood sugar was 205. [redacted] is being incubated. It appears that there is some swelling to his fontanelle. His pupils are contrived and his eyes are deviated. He was observed with a petechial rash around both of his eyes, a very soiled diaper with a small amount of stool that did not appear to be from a recent bowel movement and a brown color to his testicles; it is unknown why [redacted] testicles have a brown discoloration. There was no other bruising or skin impairments noted. It is unknown why [redacted] is having the medical issues that he is having. [redacted] will undergo further tests and it is possible that [redacted] will be tested for new onset seizures.

[redacted] and the father reported that [redacted] had been fine when he was observed earlier at 8:45 AM. The parents stated that [redacted] began to cry, suddenly became limp and was not breathing well. An unknown person at the home contacted 911. The family did not report if [redacted] had experienced any recent falls or trauma. The family denied if [redacted] has been [redacted] any type of medication. [redacted] does not have a medical history of any recent illnesses in the last couple of weeks. A month ago, [redacted] was seen at the [redacted] Emergency Department due to having a fever and experiencing flu-like symptoms; [redacted] tested negative for flu and RSV. [redacted] primary care physician is Dr. [redacted] Children's Clinic ([redacted], [redacted] TN 37075)/[redacted]

[redacted] was observed to be very unkempt and was observed to have stains on her clothing. There are concerns of possible alcohol ingestion by [redacted] and the father due to an odor of alcohol being smelled when close contact was made. It was difficult to tell who smelled like alcohol because [redacted] parents, [redacted] and another female individual, Unknown, were standing close to each other when the alcohol was smelled. No one exhibited any behaviors that would suggest that they were under the influence of a substance. It is unknown if anyone involved has a history of substance abuse. It is unknown if there have ever been any child fatalities at the family's home. There is no other information known regarding the other child that is in the home. It is unknown if the family has ever been involved with the Department of Children's Services or Law Enforcement.

There is concern because the family was observed huddled together when two nurses, [redacted]

Tennessee Department of Children's Services
Tennessee Child Abuse Hotline Summary

and [redacted] Emergency Department/[redacted] overhead someone in the huddle state, "Let's just stick to that story."

At this time, [redacted] is still considered near death and he will be transported to the [redacted] Children's Hospital for further treatment. [redacted] appeared to be distraught. Immediate Assistance is not requested of DCS.

Special Needs or Disabilities: Unknown
Child's current location/is the child safe at this time: [redacted] is currently at the [redacted] Medical Facility, but he is going to be transported to the [redacted] Children's Hospital
Perpetrator's location at this time: Unknown
Any other safety concerns for the case manager who may respond: Unknown
Domestic Violence present in the home: Unknown

CM NOTES: None

Per SDM: Investigation P1: Approved by CAH Director [redacted] CM3 [redacted] 3/5/2018 @ 12:43 PM CST. Emails sent to the DCS Child Death or Preliminary Near Death Alert Notification Group, [redacted] and the [redacted] Region Notification Group

Received by [redacted] on 3/5/2018 @ 12:47 PM CST

CLOSING CASE SUMMARY

On March 5th, 2018 the Department of Childrens Services (DCS) received a referral for an allegation of severe Physical Abuse regarding Alleged Child Victim (ACV) [redacted] (4 months). The Alleged Perpetrator (AP) was initially listed as Unknown and later identified as the birth father, [redacted] JR. This investigation was assigned to Child Protective Services Investigator (CPSI) [redacted] by Lead Investigator (LI) [redacted] This case was worked in conjunction with [redacted] Police Department Detective [redacted]

[redacted] (4 months) lived at home with his birth parents, [redacted] and [redacted] JR. Also residing in the home was the maternal grandmother ([redacted] maternal great grandmother ([redacted] maternal aunt ([redacted] first cousin ([redacted] /2), and non-relative household member ([redacted] A family friend ([redacted] was also present in the home at the time of the incident.

On March 5th, 2018, at approximately 9:20 AM, [redacted] was transported to [redacted] Emergency Room via Emergency Medical Services (EMS) due to being unresponsive with agonal breathing. [redacted] was reported to be near death at the time of arrival to the emergency department; [redacted] also was reported to be cool to the touch and have a rectal temperature of 95.1 degrees Fahrenheit. The mother, [redacted] and father, [redacted] JR, reported that [redacted] was fine when observed at approximately 8:45 AM. Ms. [redacted] and Mr. [redacted] reported that [redacted] began to cry and suddenly became limp and was not breathing well. [redacted] was transported to [redacted] Childrens Clinic for further treatment due to his condition. [redacted] was reported to have no brain activity on March 7th, 2018. [redacted] was pronounced deceased at 6:47 AM on March 8th, 2018, by [redacted] Childrens Pediatric Intensive Care Unit.

Ms. [redacted] reported on March 5th, 2018, around 6:30 AM or 7 AM she jumped out of bed because [redacted] was being carried into the living room and trying to be woken up. Ms. [redacted] reported [redacted] was being carried by Mr. [redacted] JR and Mr. [redacted] said something was wrong with [redacted] Ms. [redacted] stated she observed [redacted]

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

to be crying then spasm and go limp. Ms. [redacted] then stated she did not observe [redacted] crying. Ms. [redacted] reported a family friend, [redacted] was in the bedroom with her at the time she was awoken by Mr. [redacted] Ms. [redacted] reported she, Mr. [redacted] and Ms. [redacted] took [redacted] into the living room, laid him on his back on a blanket, and began pinching him in attempt to get him to respond. Ms. [redacted] reported Ms. [redacted] contacted 911 but it is unknown when this occurred or how long [redacted] had been unresponsive.

The birth father, [redacted] JR, reported to law enforcement he was playing video games while [redacted] was in the bouncer chair around 5 or 6 AM. Mr. [redacted] reported he walked outside to smoke a cigarette, came back inside to play video games and approximately 30-45 minutes later [redacted] woke up and was acting normally. Mr. [redacted] reported he changed [redacted] diaper, fed [redacted] a bottle with three scoops of formula and then burped him, which resulted in several burps. Mr. [redacted] reported he tried to place [redacted] back in his bouncer where he sleeps, but [redacted] became upset so Mr. [redacted] walked around with [redacted] and bounced him. Mr. [redacted] reported [redacted] started crying worse and was acting irate and [redacted] pissed. Mr. [redacted] reported [redacted] cried hard for approximately ten minutes, then became stiff, put both arms out in front of himself and then went limp. Mr. [redacted] reported [redacted] was unresponsive at that point and remained unresponsive. Mr. [redacted] confirmed this occurred between 5 and 6 AM and everyone else in the home was sleeping at the time. Mr. [redacted] confirmed he woke up the mother, [redacted] Mr. [redacted] reported he called 911 to report the emergency.
A family friend, [redacted] reported she was staying at the home at the time of the incident. Ms. [redacted] reported that Mr. [redacted] was watching [redacted] at the time of the incident. Ms. [redacted] denied hearing anything until Mr. [redacted] came into the room stating something was wrong with [redacted] Ms. [redacted] reported Mr. [redacted] told her he was feeding [redacted] but [redacted] spit out the bottle, got really mad and started screaming. Ms. [redacted] further stated Mr. [redacted] stated while he was attempting to calm [redacted] he went limp. Ms. [redacted] reported she is the person who contacted 911 to report the emergency and request assistance. Ms. [redacted] reported Mr. [redacted] was the only one awake or in the room with [redacted] when the incident would have occurred. Ms. [redacted] reported the night before the mother, [redacted] reported to her she was worried about leaving [redacted] alone with Mr. [redacted] because she was concerned Mr. [redacted] would get frustrated with [redacted] and something bad would happen.

The maternal grandmother, [redacted] reported she was asleep when everything occurred and was woken up at approximately 7:30 or 8 AM, which was about five minutes before the ambulance arrived at the home. Ms. [redacted] did not report any knowledge of what occurred. Ms. [redacted] did report that [redacted] screams a lot and pretty much anytime he is being held by the father, [redacted] Ms. [redacted] that she is concerned for the way Mr. [redacted] cares for [redacted] because she does not think it is normal for a child to cry that much when being held by one of their parents. Ms. [redacted] reported that Mr. [redacted] does sometimes get frustrated with [redacted] and sometimes will go outside to smoke while [redacted] is crying. Ms. [redacted] denied ever witnessing any abuse to [redacted]

On March 10, 2018, an autopsy was completed on [redacted] by Dr. [redacted] Center for Forensic Medicine, [redacted] TN. The autopsy reported the cause of death as blunt force injury to the head and neck and the manner of death as homicide with the circumstances of death listed as inflicted head and neck trauma.

In April 2018, [redacted] Police Department presented the charges to Grand Jury. The father, [redacted] JR, was charged with First Degree Murder and Aggravated Child Abuse.

On September 10, 2018, the case was presented to the [redacted] County Child Protective Investigative Team (CPIT). Those in attendance were: CPSI [redacted] LI [redacted] Detective [redacted] District Attorney [redacted] CAC Director [redacted] CAC Forensic Interviewer [redacted] and Juvenile Court Team Member [redacted] The team

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

was in agreement that there is a preponderance of evidence that supports the substantiation of Abuse Death and severe Physical Abuse.

Per DCS Policy Work Aid 1 Category E:
Child Death is defined as:
a) Any child death caused by abuse or neglect.
b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
c) Any child death caused by abuse or neglect resulting from the parent or legal custodian/caretakers failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.

There is a preponderance of evidence to support the allegation of Abuse Death. The case will be closed and classified as Allegation Substantiated, Perpetrator Substantiated for the Abuse Death of [redacted]

Per DCS Policy Work Aid 1 Category A:
Physical Abuse is defined as:
Any non-accidental physical injury or trauma that could cause injury inflicted by a parent, caretaker, relative or any other person who is responsive for the care, supervision or treatment of the child. Physical abuse also includes, but is not limited to:
a) A parent or caretakers failure to protect a child from another person who perpetrated physical abuse on a child;
b) Injuries, marks and/or bruising that go beyond temporary redness or are in excess of age appropriate corporal punishment (e.g., a bruise, broken bone, cut, burn);
c) Violent behavior by the parent or caretaker that demonstrates a disregard for the presence of a child and could reasonably result in serious injury (e.g., domestic violence). [redacted] (hitting, [redacted] punching, slapping, etc.) a child in such a way that would result in internal injury. Munchausen by Proxy Syndrome could be considered physical abuse or psychological abuse.

NOTE: Physical abuse should not be confused with developmentally appropriate, discipline-related marks and bruises on the buttocks or legs of children six (6) years of age and older when there are no developmental or physical delays, past history of abuse or recent (within the past year) screened-out reports.

NOTE: In its most severe form, physical abuse is likely to cause serious bodily injury or death.

There is a preponderance of evidence to support the allegation of severe Physical Abuse. The case will be closed and classified as Allegation Substantiated, Perpetrator Substantiated for the severe Physical Abuse of [redacted]

CLOSING FAST ASSESSMENT

CPSI [redacted] entered the closing FAST Assessment on this date. The safety result was Immediate Intervention Not Recommended and the risk result was Moderate Need/Risk.

ACV did experience Abusive Head Trauma which led to infant's death. Medical records and autopsy confirm the child's death was classified as a Homicide due to abusive head trauma. No intervention needed due to ACV being deceased and no other children being in the home or the care of the AP/caretakers.

Case Review

This investigation was staffed with [redacted] County CPIT team on this date and a full case presentation will occur once the official autopsy report is made available by the medical examiner's office. Mr. [redacted] Jr. was indicted for Felony Murder and remains in [redacted] County jail. The allegations of Severe Physical Abuse and Abuse Death were classified as allegation substantiated perpetrator substantiated in accordance with policy 14.7 which states that the classification is appropriate when there is a preponderance of evidence to support that an allegation, as defined in Work Aid 1, Categories and Definitions of Child Abuse-Neglect, occurred and the AP identified in the report is found to be responsible for the alleged acts. There are no other children involved in this investigation therefore a monthly face to face visit/home visit is not a necessary task for this investigation. CPSI [redacted] will ensure that all birth and hospital medical records are requested and uploaded into TFACTS.

NEXT Steps: This case will be presented and classified at [redacted] County CPIT upon receipt of the official autopsy report.

Follow Up Case Conference (Safety, Well-being and Permanency)

Lead Investigator (LI) [redacted] and Child Protective Services Investigator [redacted] held a case conference on this date to assess and track the progress of the assigned case. CPS-I [redacted] reports that the father, [redacted] Junior was arrested on charges of 1st degree murder and aggravated child abuse. There is no bond set at this time. Mr. [redacted] did not admit or confess to the crime, however he confirmed that he was last person to have the children prior to medical emergency. CPSI [redacted] states that she conducted interviews with the mother, maternal grandmother, and family friend who also confirm that Mr. [redacted] was the last caregiver with the child prior to the medical emergency. The allegation of abuse death and physical abuse were classified as allegation substantiated perpetrator substantiated in accordance with Policy 14.7 and definitions outlined in Work Aid 1. Mr. [redacted] was arrested for abuse and murder. The autopsy is still pending and will be documented in TFACTS upon receipt. CPSI [redacted] will engage the family to offer grief counseling.

NEXT STEPS: This case will be staffed at the [redacted] County CPIT meeting in its entirety upon receipt of the autopsy report.

Det. [redacted] ([redacted] PD) completed supplemental interviews on this date at the family home. Interviews/discussions completed were with [redacted] (birth mother), [redacted] (non-relative household member), [redacted] (non-relative household member), and [redacted] (maternal aunt).

**NOTE: The following interviews are typed, verbatim, per Det. [redacted] police report.

On 04-13-2018 I submitted a written request for medical records from [redacted] Medical Center for the treatment of [redacted] I received these records on 04/23/2018. On 04-23-2018 I went to [redacted] and met with [redacted] and [redacted] about conduct of [redacted] prior to the incident with [redacted] which they had thought about that concerned them. [redacted] told me that a couple weeks prior to the incident which resulted in [redacted] death there was a time [redacted] was watching videos on his cell phone of people being brutally murdered that she thought was disturbing. [redacted] stated that when she asked [redacted] about it he said he was watching them because they made him "feel better."

[redacted] also discussed an incident that made her uncomfortable involving [redacted] and [redacted] stated that [redacted] got mad at [redacted] when [redacted] wouldn't take a bottle because [redacted] hands were in the way. [redacted] stated that [redacted] roughly slammed [redacted] hands down and wrapped them up under a blanket. [redacted] stated that [redacted] was very rough when he did this and stated that [redacted] was in the bouncer and that [redacted] was pushing down hard enough on [redacted] that the entire bouncer was on the floor. [redacted] stated that she told [redacted] to never do that again. I asked [redacted] and [redacted] if they ever heard anything the night of the incident after going to sleep and they both stated that they did not. They stated that the fan was on in the room they were in, the door to the room was closed, and they didn't hear anything.

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

While at the residence on this date I also spoke with [redacted] who was upstairs in the home the night this incident occurred. [redacted] confirmed that he was home that night and woke up about five o'clock that morning. [redacted] stated that he stayed upstairs and didn't know anything or hear anything going on downstairs until EMS arrived at the residence. [redacted] stated that he heard [redacted] crying some the night before but didn't think anything of it.

Later on 04-23-2018 I was able to speak with [redacted] sister, by phone. [redacted] stated that she sleeps upstairs in the home and woke up the date of the incident to the dog [redacted] at the ambulance that was already on scene. [redacted] stated that she woke up earlier that morning at 0458 hours (looked at time on phone) and heard [redacted] crying and the television was on downstairs. [redacted] stated that she went to the restroom and back to bed. [redacted] stated that [redacted] had two different cries, a normal cry that he had with everyone except [redacted] where he could be soothed, and a cry where he sounded petrified that he had whenever [redacted] held him.

[redacted] expressed that she had been concerned with [redacted] care for [redacted] because [redacted] was rough with [redacted] and would get upset and frustrated with him. [redacted] stated that when [redacted] would be crying [redacted] would say things like "I'm going to punch you into the wall kid". [redacted] stated that [redacted] had [redacted] the majority of the time because [redacted] would complain if he ever had to do anything for [redacted] [redacted] stated that [redacted] spent all his time [redacted] and playing video games. [redacted] stated that [redacted] spent his money on alcohol and the things [redacted] needed were typically funded by [redacted] mom and family. [redacted] stated that [redacted] didn't ever want to care for [redacted] and just left him in the bouncer all the time when he was supposed to be watching him.

This case will remain in pending court status.

End of Report.

The following information is an AP interview/arrest information of the father/AP, [redacted] JR. This interview was conducted by Det. [redacted] ([redacted] PD).

NOTE** The following information is typed, verbatim, per Det. [redacted] report.

On 04-11-2018 I received the requested medical records for the treatment of [redacted] from [redacted] Medical Center. Later on 04-11-2018 I received a return call from [redacted] after I had been trying to contact him the previous two days. I explained to Mr. [redacted] that I needed to meet with him and arranged to meet with him where he was staying at his mother's residence in [redacted] TN. When I arrived at the residence Mr. [redacted] and his mother were in the front yard. I met with Mr. [redacted] by my vehicle and explained to him there was a warrant for his arrest and took him into custody. I told Mr. [redacted] his charges and read him the [redacted] warning. Mr. [redacted] invoked his right to an attorney. Mr. [redacted] was transported from this location to [redacted] County Jail by Officer A. [redacted]

CPSI [redacted] met with Det. [redacted] at the [redacted] CID office on this date. Det. [redacted] confirmed that he did attend the autopsy for ACV [redacted] Det. [redacted] stated that it was confirmed that [redacted] brain injuries were consistent with abuse but he did not have any skull fractures. Det. [redacted] stated that [redacted] did have a broken ankle bone (unknown which leg) which was also determined to be the result of abuse.

Det. [redacted] stated that the family has "pretty much turned on" the father ([redacted] JR). Det. [redacted] stated that he has not conducted any additional interviews with the family, at this time.

CPSI [redacted] asked Det. [redacted] if he would be available to conduct a home visit with CPSI [redacted] later this week. Det. [redacted] agreed to do so. CPSI [redacted] will contact Det. [redacted] to set up this home visit.

Narrative Type: Created In Error Entry Date/Time: 03/20/2018 06:50 PM Entered By: [redacted]

CPSI [redacted] entered Det. [redacted] first name ([redacted] in some of the sentences. For consistency and to avoid confusion the notation will be corrected and re-entered.

INITIAL CASE CONFERENCE

Lead Investigator-LI [redacted] held a case conference with Child Protective Services Investigator-CPSI [redacted] to assess for safety, well-being and permanency of the alleged child victim(s) [redacted] The referral allegation is physical abuse and the alleged perpetrator is listed as unknown. The parents are identified as [redacted] (mother) and [redacted] Junior. The priority 1 is severe abuse and [redacted] Police Department is conducting the criminal investigation. CPSI met priority response at [redacted] Medical Center. The ACV is reported to be a traumatic state and is not expected to survive his injuries. The other household members are [redacted] (maternal grandmother), [redacted] (m. great grandmother), [redacted] (m. aunt) and [redacted] (non relative household member). CPSI [redacted] conducted initial interviews with Ms. [redacted] (mother) and Ms. T. [redacted] (grandmother), and [redacted] at [redacted] Hospital. The mother is reportedly diagnosed with bipolar disorder and depression but not on medication or in counseling. Ms. [redacted] reported that Mr. [redacted] was the last person with the child and he was alone. The mother reported that she was uncomfortable leaving the child with the father sometimes due to his anger issues. Ms. T [redacted] reported that she did not witness anything however, she stated that Mr. [redacted] has no [redacted] and gets frustrated when the baby cried. The grandmother denied any domestic violence between the parents. CPSI [redacted] reports that there is conflicting information in the timelines and events preceding the call for an ambulance. CPSI [redacted] was not able to interview the father, [redacted] as he was not at the hospital and his whereabouts were unknown at the time. [redacted] Police Department did conduct an interview with the father, site visit with photographs. The district attorney and law enforcement are waiting for the CARE team at [redacted] to complete their consult and provided findings.

LI [redacted] and CPSI [redacted] conducted a MSW consult with IC [redacted] The following steps were identified: site visit by CPSI, father interview or law enforcement report of interview, and other household member interviews.

NEXT STEPS: CPSI__ will continue to investigate this severe abuse allegation per policy 14.6, 14.7 and Work Aid

CPSI [redacted] met with the mother, [redacted] in private at [redacted] Children's Hospital PICU. CPSI [redacted] met with Ms. [redacted] to ask specific questions, at the request of Det. [redacted] Det. [redacted] requested CPSI [redacted] complete this interview since he cannot be present at the hospital and the family has been updated on ACV [redacted] injury.

CPSI [redacted] asked Ms. [redacted] if [redacted] father ([redacted] JR) is still at the hospital or if he left. Ms. [redacted] stated that she is not sure where Mr. [redacted] is located; Mr. [redacted] was at the hospital for approximately one hour but "couldn't stand to be in the room for more than ten minutes without having to get sick." CPSI [redacted] asked Ms. [redacted] if Mr. [redacted] currently has a phone with him where he could be contacted and she stated that she is not sure. CPSI [redacted] asked if Mr. [redacted] drove himself to the hospital or if someone brought him; Ms. [redacted] stated that Mr. [redacted] mother brought him to the hospital but has since left to go home and get ready for work. Mr. [redacted] did not go back home with his mother. Ms. [redacted] stated that Mr. [redacted] is "no stranger to the [redacted] area" and if he wanted to go take a walk he could be "anywhere." Ms. [redacted] stated that Mr. [redacted] is "terrified" because the detectives "basically told him it was his fault that our son is the way he is." Ms. [redacted] stated that "it's not that my fiance' isn't cooperating, he just doesn't know how to deal with this."

CPSI [redacted] addressed the update from the medical staff on [redacted] injury and prognosis. Ms. [redacted] stated "he's never gonna live a normal life" and became tearful. CPSI [redacted] gave Ms. [redacted] a few minutes to calm down and regain her composure before continuing the interview. Ms. [redacted] was able to regain her composure and CPSI [redacted] continued the interview; CPSI [redacted] addressed that the medical team has concluded the injury is abuse related. CPSI [redacted] further stated that someone would have had to do this to [redacted] he wouldn't have been able to do this on his own. CPSI [redacted] explained to Ms. [redacted] that the medical team, law enforcement and DCS need some additional information regarding what happened. CPSI [redacted] addressed the discrepancies in the timelines and information provided by the family. CPSI [redacted] asked Ms. [redacted] to

Tennessee Department of Children's Services

Case Status: Close Organization: [redacted] Region

provide step-by-step, exact details of everything she can remember on the morning of the incident. Ms. [redacted] stated that it was "starting to become daylight so it could have been 6:30 or 7, somewhere in that time frame."Ms. [redacted] stated that she "jumped out of bed because he was being carried into the living room and we tried to get him to wake up, and we laid him down; we tried pinching him, we tried everything we could. And that was when we called the ambulance because he wouldn't respond or anything and he was [redacted] these horrible, ragged breaths." CPSI [redacted] clarified this information by [redacted] Ms. [redacted] where [redacted] was located when she woke up. Ms [redacted] stated that [redacted] was "in his dad's arms because he was telling me that there was something wrong with him and he didn't want to leave him by himself." CPSI [redacted] asked Ms. [redacted] if she remembers exactly what Mr. [redacted] said when he woke her up. Ms. [redacted] reported that Mr. [redacted] said "get up, there's something wrong with [redacted] I need you to come look at him, right now!" Ms. [redacted] stated that "he was crying" and CPSI [redacted] asked who was crying; Ms. [redacted] stated that [redacted] was crying, then he spasmed and then he went limp. CPSI [redacted] asked Ms. [redacted] if she saw [redacted] crying and she stated that she did not and she also did not hear him crying while she was asleep because she had a fan running in her room. CPSI [redacted] confirmed where [redacted] [redacted] was located during this time, Ms. [redacted] stated that [redacted] was "in the bed with me." Ms. [redacted] confirmed that Ms. [redacted] also woke up at this time. Ms. [redacted] confirmed that she and Ms. [redacted] were sleeping in the bedroom and they all went back into the living room which is "twenty steps total when you go around the wall." CPSI [redacted] asked who carried [redacted] back into the living room and Ms. [redacted] confirmed that Mr. [redacted] was carrying [redacted] and the reason they returned to the living room was because there was not any light in the bedroom. Ms. [redacted] reported that [redacted] was laid on the floor on his "tummy-time blanket" by Mr. [redacted] [redacted] was laid on his back and facing the ceiling. At this time is when the family began pinching [redacted] and attempting to get a response. CPSI [redacted] then asked Ms. [redacted] who called 911 and she reported that Ms. [redacted] made the phone call. CPSI [redacted] asked Ms. [redacted] if she knows about how long it took for the ambulance to arrive and Ms. [redacted] stated that she does not know but it felt like forever while they were on the phone. Ms. [redacted] stated that the ambulance immediately took [redacted] to the hospital once they arrived.

CPSI [redacted] addressed the timeline of the injury and that [redacted] was not breathing on his own meaning that the injury did not occur a few weeks or days ago. CPSI [redacted] then asked Ms. [redacted] if Mr. [redacted] has talked to her about anything that has happened since [redacted] has been at the hospital. Ms. [redacted] stated that Mr. [redacted] is "stressed out and is terrified of losing his son. He doesn't handle stress well." CPSI [redacted] asked Ms. [redacted] if anyone else would have had access to [redacted] on that morning and Ms. [redacted] stated that [redacted] ([redacted] [redacted] paramour) wakes up before everyone else does. Ms. [redacted] stated that [redacted] did not come down the stairs on this morning and Mr. [redacted] has not mentioned seeing [redacted] on that date. Ms. [redacted] stated that Mr. [redacted] possible took a nap at some point though because they were up all night. CPSI [redacted] asked Ms. [redacted] what time they went to sleep and she stated that it was around 3 AM.

CPSI [redacted] stated that one of the things Mr. [redacted] had mentioned to law enforcement was feeding [redacted] before this all happened. CPSI [redacted] asked if [redacted] has a specific feeding schedule; Ms. [redacted] stated that during the night when [redacted] wakes up, he gets changed and gets a bottle to help him go back to sleep." Ms. [redacted] stated that during the daytime the family always tries his bottle first in case he is hungry. CPSI [redacted] confirmed that the family was giving [redacted] three scoops of formula in his bottle and Ms. [redacted] confirmed and said "which we were told he is not supposed to have because it's not in the directions but that's the way he likes his formula." CPSI [redacted] asked how much of a bottle [redacted] would normally drink, per feeding. Ms. [redacted] stated that [redacted] would "drink anywhere from half a bottle to a quarter of a bottle to almost three quarters of a bottle, depending on how hungry he was."

CPSI [redacted] asked Ms. [redacted] if there is anything else she can think of that would be helpful at this point; Ms. [redacted] stated that "sometimes when [redacted] was a little younger than he is now and [redacted] would watch him,

he ([redacted] would bring him over the bed and his head would flop around a little bit." Ms. [redacted] denied having any additional information, at this time. CPSI [redacted] provided Ms. [redacted] with a business card and asked her to please call CPSI [redacted] if she thinks of anything or has any questions.

CPSI [redacted] thanked Ms. [redacted] or her cooperation. No additional information was discussed, at this time.

CPSI [redacted] met with the grandmother, [redacted] in private at [redacted] Children's Hospital PICU. CPSI [redacted] met with Ms. [redacted] to ask specific questions, at the request of Det. [redacted] Det. [redacted] requested CPSI [redacted] complete this interview since he cannot be present at the hospital and the family has been updated on ACV [redacted] injury.

Ms. [redacted] advised that [redacted] father, [redacted] JR, got to the hospital around 1 PM on this date but now the family is unsure where he is located. Ms. [redacted] stated that it is possible that Mr. [redacted] left but this is not confirmed. Ms. [redacted] stated Mr. [redacted] is upset about everything.

Ms. [redacted] confirmed that the [redacted] CARE team updated everyone on the status of [redacted] condition and injury. CPSI [redacted] explained to Ms. [redacted] that this injury was abuse related and not believed to be a natural cause or accidental; Ms. [redacted] acknowledged and confirmed this is what the medical team had informed the family. Ms. [redacted] stated "right, someone hurt [redacted] CPSI [redacted] further explained that the medical team has determined this injury would have occurred on the morning of the incident and it was impossible for it to have occurred a few weeks or days ago. CPSI [redacted] addressed the concerns with the different timelines and explanations that have been provided from the family. Ms. [redacted] then made the comment "yeah, someone is lying, someone is gonna get caught, and it's only a matter of time." CPSI [redacted] asked Ms. [redacted] if she has any suspicions or new knowledge of what may have happened or if can she think back to any previous concerns or red flags. Ms. [redacted] stated "the only thing I know is that [redacted] was the last person to have [redacted] Ms. [redacted] stated that Mr. [redacted] and [redacted] all admitted that Mr. [redacted] was the last person to be with [redacted] CPSI [redacted] asked Ms. [redacted] if Mr. [redacted] is the type of person to get very angry or snap if something happens and Ms. [redacted] stated that Mr. [redacted] "does get upset when he has been [redacted] which he tends to do a lot, but I really don't know." Ms. [redacted] then seemed to get upset, her voice cracked and she became red in the face and stated "honest to God, more than anything, I

am so mad at [redacted] I understand it's upsetting, I understand it's hard, you're really emotional; but he wasn't here last night and he's [redacted] again. I'm sorry, but your wife, or fiance' whatever she is to him, and your son need you and you're too worried about your damn self." CPSI [redacted] acknowledged Ms. [redacted] frustration. Ms. [redacted] followed up this statement by stating that Mr. [redacted] behaviors "are so suspicious and just screams 'oh my God, you did it.'" CPSI [redacted] also addressed that law enforcement, the medical team, and DCS are just attempting to put the missing pieces together at this time and if anyone knows what occurred or if it was an accident then that person should provide any information that would be helpful. Ms. [redacted] was in agreement with this statement.

CPSI [redacted] thanked Ms. [redacted] for her assistance and cooperation on this date. The interview was concluded at this time; no additional information was discussed.

COLLATERAL CONTACT - PICU SOCIAL WORKER

CPSI [redacted] met with [redacted] Children's PICU Social Worker, [redacted] in private on this date. [redacted] stated that an MRI had been completed on ACV [redacted] earlier on this date. Dr. [redacted] with the [redacted] CARE Team stated that the MRI results were "one of the worst" she had ever seen. [redacted] also has a cluster of blood in his spinal cord which further indicates the injury was abuse related. [redacted] advised that the family was updated regarding the status of [redacted] injury and the father, [redacted] JR, stood up and said "is that all?" Mr. [redacted] stated that he needed some "alone time" with the mother ([redacted] and this was granted. Once nurses re-entered the room, Mr. [redacted] stated he was going to be sick, left the room to vomit, and never came back to the room. [redacted] advised that Ms. [redacted] became "completely withdrawn" when hearing the update regarding [redacted] prognosis.

[redacted] advised that Mr. [redacted] has not been present for over one hour. Ms. [redacted] left the PICU floor approximately 10-15 minutes ago but it is unknown where she was going or where she is currently located.

[redacted] provided CPSI [redacted] with some of [redacted] medical notes, at this time. These medical notes will be uploaded into the documents section of the case.

CPSI [redacted] thanked [redacted] for this update.

CPSI [redacted] met with the non-relative household member, [redacted] on this date. CPSI [redacted] met with Ms. [redacted] in private at [redacted] Children's Hospital.

CPSI [redacted] engaged with Ms. [redacted] by gaining demographic information. Ms. [redacted] stated her full name is [redacted] her DOB is [redacted], and her SSN is [redacted] Ms. [redacted] stated that she does not currently have a permanent residence but was previously living with her father in Mississippi; Ms. [redacted] contact number is [redacted] Ms. [redacted] stated that she is temporarily staying with [redacted] Ms. [redacted] has been in Ms. [redacted] home for four days and will be here for approximately one week. Ms. [redacted] stated that she does have children but they do not reside with her and are not with her in Tennessee.

CPSI [redacted] asked Ms. [redacted] for some information on what occurred at the home. Ms. [redacted] stated that she and Ms. [redacted] were asleep in the bedroom while the father ([redacted] JR) and ACV [redacted] were asleep in the living room.Ms. [redacted] stated that when she found out something was wrong with [redacted] she got out of bed, ran in the living room and laid [redacted] on the floor on a blanket. Ms. [redacted] stated that she tried to get [redacted] to respond but was unsuccessful and then told Mr. [redacted] to call 911; Ms. [redacted] is the one who spoke with 911 operators. Ms. [redacted] stated that she did not look at the clock so she is unsure of what time this occurred. Ms. [redacted] confirmed that [redacted] was in Mr. [redacted] arms when he woke Ms. [redacted] and Ms. [redacted] up to let them know something was wrong. Ms. [redacted] stated that they went back into the living room because it was dark in the bedroom. Ms. [redacted] stated that [redacted] was not responsive, at all, and his eyes were half open but not moving. Ms. [redacted] stated that [redacted] was "limp" and "greyish" in color. Ms. [redacted] stated that [redacted] was gasping and [redacted] irregular breaths. Ms. [redacted] stated that she thought [redacted] was "brain dead" at this time. Ms. [redacted] stated that [redacted] felt a normal temperature to her and was only wearing a diaper.

CPSI [redacted] spoke with the maternal grandmother, [redacted] on this date. The interview took place in the "quiet room" at [redacted] Children's PICU. CPSI [redacted] introduced herself to Ms. [redacted] and stated her position with the Office of Child Safety.

CPSI [redacted] engaged with Ms. [redacted] by obtaining demographic information. Ms. [redacted] stated her full name is [redacted] her DOB is [redacted], and her SSN is [redacted] Ms. [redacted] confirmed that she is ACV [redacted] maternal grandmother and resides at the same address as [redacted] ([redacted], [redacted] TN). Ms. [redacted] stated that her phone number is [redacted] Ms. [redacted] confirmed the household composition as follows: ACV [redacted] (ACV's mother), [redacted] JR (ACV's father), [redacted] (ACV's great grandmother), [redacted] (ACV's aunt), [redacted] (ACV's cousin) and [redacted] (Ms. [redacted] paramour). Ms. [redacted] stated that up until one week ago her boyfriend ([redacted] was residing in the home, but they broke up. Ms. [redacted] stated that [redacted] friend, [redacted] also spent the night at the family's home last night but does not reside in the home.

CPSI [redacted] asked Ms. [redacted] if she was at the home when the incident occurred this morning. Ms. [redacted] stated that she was in the home but she was upstairs asleep when she found out something was wrong with [redacted] Ms. [redacted] stated that she was woken up by Ms. [redacted] and was told that [redacted] was not breathing and the ambulance was on the way. Ms. [redacted] stated that she did not actually see [redacted] until she arrived at [redacted] Hospital. CPSI [redacted] asked Ms. [redacted] where [redacted] was located in the home when everything occurred. Ms. [redacted] stated that he was downstairs where he, his mother ([redacted] and father ([redacted] JR) sleep. Ms. [redacted] stated that [redacted] and Mr. [redacted] have the whole downstairs area of the home to themselves. Ms. [redacted] stated that she was informed that [redacted] was asleep in front of the TV downstairs, in his bouncer when he woke up and started crying. Ms. [redacted] stated that [redacted] does have a crib but "likes to sleep in the bouncer and in front of the TV, because he likes the noise." Ms. [redacted] stated that she was then informed

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

that Mr. [redacted] changed [redacted] diaper and gave him a bottle but [redacted] continued to cry and started screaming then "went limp." Ms. [redacted] stated that Mr. [redacted] was the only person that would have been caring for [redacted] during this time because [redacted] and Ms. [redacted] were asleep. Ms. [redacted] stated that [redacted] and Mr. [redacted] "switch out" [redacted] care of [redacted]

CPSI [redacted] asked Ms. [redacted] where Mr. [redacted] is currently located and she seemed to get upset and said that he has left the hospital. CPSI [redacted] asked where Mr. [redacted] went and if he is coming back. Ms. [redacted] stated that Mr. [redacted] his probably with his mother ([redacted] [redacted] at her home in [redacted] TN, but this is not confirmed. CPSI [redacted] asked Ms. [redacted] if she knows this address but Ms. [redacted] stated that she does not. Ms. [redacted] stated that Mr. [redacted] does not have his own phone but may still have [redacted] phone. Ms. [redacted] stated that she had called [redacted] phone earlier and Mr. [redacted] answered and said that he had left the hospital "because [redacted] threw him under the bus" when she was interviewed by law enforcement.

CPSI [redacted] asked Ms. [redacted] if there are any domestic violence issues between [redacted] and Mr. [redacted] Ms. [redacted] stated that [redacted] and Mr. [redacted] yell at each other a lot but have never gotten physical. CPSI [redacted] asked Ms. [redacted] how Mr. [redacted] acts when he is upset and she stated that he will scream and "slam stuff when he is pissed off." Ms. [redacted] stated that Mr. [redacted] likes to slam doors. CPSI [redacted] asked Ms. [redacted] how the parents' relationships are with [redacted] Ms. [redacted] stated that [redacted] and [redacted] have a very good relationship and bond well. Ms. [redacted] stated that '[redacted] doesn't like [redacted] CPSI [redacted] asked Ms. [redacted] what she means by this and Ms. [redacted] stated that [redacted] screams every time Mr. [redacted] holds him but [redacted] is fine and calm around everyone else. Ms. [redacted] stated that Mr. [redacted] has gotten very frustrated with [redacted] before when [redacted] was crying.

CPSI [redacted] asked Ms. [redacted] if she has any concerns of drug use in the home. Ms. [redacted] stated that to her knowledge there is no drug use in the home. Ms. [redacted] stated that Mr. [redacted] drinks alcohol on a daily basis. Ms. [redacted] stated that Mr. [redacted] will drink "whatever he can get his hands on." CPSI [redacted] asked Ms. [redacted] how Mr. [redacted] acts when he is under the influence of alcohol and she stated that she does not really know because she tries to not be around him when he is [redacted] CPSI [redacted] asked Ms. [redacted] if Mr. [redacted] had ever become violent when consuming alcohol and Ms. [redacted] stated that she had never observed him to become violent when [redacted] Ms. [redacted] stated that Mr. [redacted] Ms. [redacted] and [redacted] were all [redacted] alcohol last night but none of them were really "lit" (drunk). Ms. [redacted] stated that she is not sure how long the group was [redacted] but later "chilled on the couch and watched movies."

CPSI [redacted] asked Ms. [redacted] if [redacted] has any medical issues or takes any medications. Ms. [redacted] stated that [redacted] has "tummy issues" and has to take constipation ease and mylicon drops; [redacted] uses Parent's Choice Sensitive formula. Ms. [redacted] stated that [redacted] does not have any other medical issues. CPSI [redacted] asked Ms. [redacted] if she has recently observed any bruises on [redacted] and she stated "no." CPSI [redacted] asked Ms. [redacted] if she has any idea what the bruises on [redacted] body would have been caused by and she denied knowing what would have caused them. CPSI [redacted] asked Ms. [redacted] if [redacted] bouncer moves/rolls or if it is stationary and Ms. [redacted] confirmed that it is stationary. CPSI [redacted] asked if there are any types of toys on the bouncer that [redacted] could have hit and Ms. [redacted] stated that there is not anything like this that he would have hit.

Ms. [redacted] denied having any additional information at this time. CPSI [redacted] provided Ms. [redacted] with a business card in the event she has any questions or concerns. CPSI [redacted] thanked Ms. [redacted] for [redacted] with her, on this date. No additional information was discussed.

CPSI [redacted] met with the birth mother, [redacted] in private on this date. The interview took place in the "quiet room" at [redacted] Children's Hospital PICU. CPSI [redacted] introduced herself to Ms. [redacted] and stated her position with the Office of Child Safety.

CPSI [redacted] engaged with Ms. [redacted] by gaining demographic information. Ms. [redacted] stated that her full name is [redacted] her DOB is [redacted], and her SSN is [redacted] Ms. [redacted] stated that she only has one child, [redacted] (ACV). Ms. [redacted] stated that [redacted] DOB is 11/03/2017 but that she does not know his SSN; Ms. [redacted] stated that [redacted] father has this information. Ms. [redacted] stated that she is engaged to [redacted] father, [redacted] JR; [redacted] DOB is [redacted]. Ms. [redacted] stated that she and Mr. [redacted] have been in a relationship for two years. Mr. [redacted] does not have any other children. Ms. [redacted] confirmed that the family currently resides at [redacted], [redacted] TN. Ms. [redacted] stated that her phone number is [redacted] and Mr. [redacted] does not have a phone. Ms. [redacted] stated that she is not currently employed; Mr. [redacted] was employed at [redacted] until last week but is no longer employed. The family does not receive food stamps, WIC, or any other assistance.

CPSI [redacted] asked Ms. [redacted] if anyone else lives in the home. Ms. [redacted] stated that her mother ([redacted] her grandmother ([redacted] her sister ([redacted] niece ([redacted] / age 2), and Ms. [redacted] boyfriend ([redacted] currently reside in the home.

CPSI [redacted] asked Ms. [redacted] if she has any criminal history and she reported that she was previously charged with a misdemeanor for possession of drug paraphernalia, marijuana related; Ms. [redacted] denied being on probation, at this time. CPSI [redacted] asked Ms. [redacted] if Mr. [redacted] has any criminal history and she stated that she "doesn't know." CPSI [redacted] asked Ms. [redacted] if Mr. [redacted] is on probation for anything and Ms. [redacted] again stated that she does not know. CPSI [redacted] asked Ms. [redacted] if she currently has any

diagnoses or if she takes any medications. Ms. [redacted] stated that she is diagnosed with manic depression and bipolar disorder. Ms. [redacted] stated that she is not prescribed any medications and does not see any counselors for her diagnoses. Ms. [redacted] denied any domestic violence issues between herself and Mr. [redacted] At this time, Ms. [redacted] became very agitated with questions and started raising her voice and answering with short responses.

CPSI [redacted] asked Ms. [redacted] if she would consent to a urine drug screen on this date and Ms. [redacted] stated that she has not eaten or drank anything. CPSI [redacted] asked Ms. [redacted] if she would like some water in order to use the bathroom. Ms. [redacted] then stated that she would take a urine drug screen. Ms. [redacted] signed the drug screen consent form. CPSI [redacted] conducted and witnessed the urine drug screen. Ms. [redacted] was negative for all substances.

CPSI [redacted] provided Ms. [redacted] with a Client's Rights Handbook, discussed the contents of the handbook, and confirmed that the ACV and parents are not registered with any Native American Tribes; Ms. [redacted] signed the intake documents form and confirmed that she received the Client's Rights Handbook. CPSI [redacted] also requested that Ms. [redacted] signed Releases of Information To/From DCS on herself and ACV [redacted] [redacted] Releases of Information were obtained for both Ms. [redacted] and [redacted] CPSI [redacted] thanked Ms. [redacted] for her cooperation and assistance; CPSI [redacted] concluded the interview at this time.

Ms. [redacted] was observed to be wearing dirty clothes and appeared unkempt; Ms. [redacted] also had dirty hair on this date that appeared as if it had not been washed in several days. Ms. [redacted] was not observed to have any physical marks, bruises or injuries on this date.

Narrative Type: Addendum 1 Entry Date/Time: 09/13/2018 05:33 PM Entered By: [redacted]

CPSI [redacted] did discuss counseling and/or mental health treatment with Ms. [redacted] regarding her mental health diagnoses and Ms. [redacted] reported that she is not interested in any type of counseling. CPSI [redacted] informed Ms. [redacted] that DCS can also assist with grief counseling for herself or the family due to the incident that has occurred and Ms. [redacted] again reported that she is not interested in any type of counseling or therapy.

COLLATERAL CONTACT - [redacted] HEAD PICU DOCTOR

CPSI [redacted] met with [redacted] Children's head PICU doctor, Dr. [redacted] Dr. [redacted] stated that ACV [redacted] injury is likely not survivable and if he does survive he will never be functioning; for example, [redacted] will never be able to walk, talk, or do anything for himself himself and would also be blind.

Det. [redacted] was also present during this discussion and asked Dr. [redacted] if the father's story matches what has occurred. Dr. [redacted] stated that due to the severity of the injury, [redacted] would have not been able to cry or eat after the injury occurred because he was unable to breathe on his own. Dr. [redacted] stated that it is not possible that [redacted] was crying, became stiff and then went lifeless unless an abusive action occurred during that time that would have caused the brain injury. Dr. [redacted] stated that when [redacted] arrived at [redacted] Hospital his brain was already so damaged that he was not breathing. Dr. [redacted] stated that the brain damage is the equivalent to the amount of force someone would experience if they were ejected from a car at a high rate of speed.

Dr. [redacted] stated that an EEG will be conducted tonight to monitor any brain activity that [redacted] may have. The medical team will also be attempting an arterial line later tonight to monitor [redacted] blood pressure. An arterial line was attempted earlier but was unsuccessful because [redacted] body is so traumatized that his arteries are "clamped down."

CPSI [redacted] and Det. [redacted] thanked Dr. [redacted] for this information. No additional information was discussed, at this time.

CPIT CONSULT WITH [redacted] CARE TEAM AND SOCIAL WORK

CPSI [redacted] and Det. [redacted] ([redacted] CID) met with Dr. [redacted] ([redacted] CARE Team) and [redacted] (PICU Social Worker) on this date. Dr. [redacted] advised that a skeletal survey will not be conducted until tomorrow (03/06/2018). No additional tests will be conducted tonight due to ACV [redacted] traumatic state.

[redacted] stated that she will fax over all medical records to DCS and law enforcement, as they are obtained.

CPSI [redacted] thanked the medical team for their assistance. No additional information was discussed, at this time.

INITIAL ACV OBSERVATION - CARE TEAM EXAMINATION

CPSI [redacted] entered [redacted] Children's PICU room [redacted] at this time and observed ACV [redacted] was unresponsive and in a C-collar for neck stabilization; [redacted] is also breathing via a breathing tube. Dr. [redacted] with the [redacted] CARE Team began the physical examination on [redacted] at this time. Present in the room were two PICU nurses (names unknown) and on-call social worker ([redacted]

Dr. [redacted] conducted a full, external physical examination of [redacted] Dr. [redacted] observed bruising on the back of the scalp area, bruising on the back, right shoulder area and bruising on the front, right collar bone area. [redacted] is also observed to have bruising around both eyes. Dr. [redacted] did take photographs of the bruising. Due to [redacted] current medical state his pupils were not examined, at this time. [redacted] was also observed to have dirty fingernails but no other hygiene concerns.

No additional notations were made regarding [redacted] physical examination.

[redacted] CARE TEAM

CPSI [redacted] met with Dr. [redacted] with the [redacted] CARE Team. Dr. [redacted] advised that she had just finished getting history from the family and the detectives were [redacted] with the parents, at this time. ACV [redacted] is current in room 5422 of the Pediatric Intensive Care Unit (PICU).

Dr. [redacted] stated that ACV [redacted] has a subdural hematoma and a "very very bad" brain injury. Dr. [redacted] stated that a skeletal survey will not be completed until 03/06/2018 but she is about to do a physical examination of [redacted] Dr. [redacted] advised that [redacted] is not expected to survive this injury but the examinations are still in the early stages and it is not possible, at this time, to adequately assess the amount of damage.

Dr. [redacted] stated that this is not a good family situation. Dr. [redacted] provided history regarding the family, that was provided during her meeting with the family. It is reported that the father, [redacted] JR, is currently on probation for assaulting a law enforcement officer and has other prior criminal history, as well. The mother, [redacted] reports being diagnosed with manic depression and bipolar disorder but has not received medication management or counseling within the past two years. Ms. [redacted] reportedly had an IEP in high school for "attention." According to the family, the current household composition is as follows: [redacted] (birth mother), [redacted] JR (birth father), [redacted] (ACV), maternal grandmother (information unknown), maternal great grandmother (information unknown); maternal aunt (information unknown), two year old female cousin (name unknown), and the great grandmother's boyfriend (information unknown). The grandmother's ex-boyfriend (name unknown) was also living in the home up until the past week. Mr. [redacted] allegedly was employed at [redacted] but lost his job within the last week due to his employer finding out about his criminal history. Mr. [redacted] and Ms. [redacted] both denied any domestic violence issues to the CARE team when questioned. The family also seems to lack parenting knowledge as they were inappropriately feeding [redacted] It is reported that Ms.

[redacted] and Mr. [redacted] would put three scoops of formula in a bottle and then fill the rest of the bottle with water instead of measuring appropriately. [redacted] primary pediatric doctor is reported to be Dr. [redacted] in [redacted] however, [redacted] has not followed up with his pediatrician in two months.

Regarding the timeline of events for today's incident Dr. [redacted] stated that the family's timeline is not very coherent. Mr. [redacted] allegedly cannot keep a timeline with anything that has occurred. Ms. [redacted] timeline of events seemed more accurate but there were still some concerns. Both Mr. [redacted] and Ms. [redacted] stated that Mr. [redacted] would have been alone with [redacted] between the hours of 5 AM and 6 AM, when the incident allegedly occurred. According to the family, [redacted] sleeps in a bouncer in the living room, in front of the TV because he "likes the noise." According to Mr. [redacted] [redacted] woke up around 5:30 or 6 AM and Mr. [redacted] gave [redacted] a bottle. Mr. [redacted] stated that [redacted] would not go back to sleep after this and became inconsolable. Mr. [redacted] stated that [redacted] cried excessively for approximately five to ten minutes, became very stiff and then became lifeless. Mr. [redacted] stated that around 7 AM he woke up Ms. [redacted] to let her know something was wrong with [redacted] Mr. [redacted] allegedly made the comment to other nursing staff that he was "very frustrated with [redacted] crying."

A family friend, [redacted] [redacted] was also present in the home last night and is believed to have spent the night in the home. It is believed that Ms. [redacted] and Ms. [redacted] were consuming alcohol last night (03/04/2018) but additional details are unknown. It is reported that Ms. [redacted] made the comment to law enforcement that Ms. [redacted] previously told her that she (Ms. [redacted] was "not comfortable leaving [redacted] alone with Mr. [redacted] due to his anger issues."

It is reported that Ms. [redacted] and Mr. [redacted] asked if they could go smoke and eat before they had to go to the PICU. Allegedly the parents also asked law enforcement if they could go smoke a cigarette prior to their investigations, as well.

At this time Dr. [redacted] began preparing for [redacted] physical examination. No additional information was discussed, at this time.

SEARCH WARRANT AT HOME BY LAW ENFORCEMENT

The following information is typed, verbatim, per Det. [redacted] ([redacted] PD) report of the obtained search warrant and conducted search warrant at the family residence.

On 3/5/18 I was instructed by Lt. [redacted] to do a search warrant for [redacted] to assist with a child abuse investigation. I typed up a search warrant for [redacted] searching for specific items that were described in the search warrant. I went and had the search warrant signed by Judge [redacted]

Sgt. [redacted] Sgt. [redacted] Detective [redacted] and I executed the search warrant on the residence. I photographed the scene prior to moving any objects in the area where the child was said to be when they noticed the child was not breathing. We collected items that were described in the search warrant and anything that may be able to help explain what happen to the child. The items were property receipted and a copy of the property receipt was left at the residence. The items that were seized were placed into the lab so that Detective [redacted] could review the items.

On 3/6/18 I did a return of the search warrant with Judge [redacted] and provided him with a complete copy of the search warrant.

That concluded my involved with this case.

End of report.

Det. [redacted] with [redacted] PD visited the family home on this date and observed/interviewed [redacted] (maternal aunt), [redacted] (non-relative household member), [redacted] (minor child / cousin to ACV), and [redacted] (great-grandmother). The following information is typed, verbatim, from Det. [redacted] report.

On 03-05-2018 Lt. [redacted] tasked me to assist in the investigation. Det. [redacted] and I were tasked to go to the residence at [redacted] Dr. we arrived at 1350 hrs and made contact with [redacted] and her 2 year old daughter [redacted] invited us in, I explained we were there to determine what happened to [redacted] and [redacted] were interviewed separately, both gave similar statements including;
- [redacted] and [redacted] live downstairs in the residence with [redacted] everyone else has bedrooms upstairs.
- [redacted] and [redacted] are the primary caregivers for [redacted]
- [redacted] stated she was unaware of any serious issues with [redacted] health or during the pregnancy.
- [redacted] stated she was concerned that [redacted] and [redacted] would put [redacted] in a bouncy chair and rock him too vigorously.
- [redacted] stated she had seen apparent bruising on [redacted] temple approximately one month ago, [redacted] told her it was because [redacted] had "head butted" [redacted] or [redacted]
- [redacted] stated [redacted] and an adult friend named [redacted] were [redacted] downstairs last night.
- [redacted] and [redacted] were upstairs asleep and unaware of anything happening this morning until they heard the ambulance arive.

Det. [redacted] left the residence to prepare a search warrant, ultimately obtained by Det. [redacted] I waited at the

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

residence with [redacted] and [redacted] both continued to carry on conversation and expressed concern for [redacted] health.

At 1715 hrs [redacted] came home from work. She had been without her cellphone and was unaware of the day's events. I spoke briefly with her and informed her of the incident. [redacted] also spoke with her in the living room and told [redacted] had bleeding on and around his brain. [redacted] stated she had worked in the medical field some time, became upset and stated "They better not have shook that baby". [redacted] also related approximately one month ago she had observed apparent bruising on [redacted] temple and described it as possibly finger shaped. [redacted] also related the head butt explanation from [redacted] and [redacted]

At this time, Det. [redacted] arrived and served the search warrant, providing Ms. [redacted] with a copy. Det. [redacted] photographed the downstairs, identified as the primary living are for [redacted] and [redacted] This included a living room area, bedroom and full bathroom. There was an exterior door to a porch, an interior door to the garage and stairs to the first floor of the residence. The rooms were dirty with trash on the floor.
I observed the following items, described by Det. [redacted] from his interviews;
-A bouncy seat in the living room area.
-A baby bottle with a white liquid on the floor near the bouncy seat
-A baby bottle with a white material consistent with curdled milk/infant formula on the table next to the tv.
-Over the counter medication including children's pain reliever and Nyquil capsules on the table next to the tv
-A crib in the living room with dirty linen
-A baby bottle with curdled milk/formula on a dresser in the living room
-A partial full bottle of makers mark whiskey under a patio table on the porch
-A McDonald's cup on the same table, with a fluid that smelled of an alcoholic beverage.
-A paper TN ID for [redacted] Jr
-A W-2 tax form for [redacted] Jr
-A Metro [redacted] mailing to [redacted]

These items were collected and receipted as evidence. The evidence was packaged and put in the CID lab at HPD pending further processing.

CPSI [redacted] confirmed with Det. [redacted] and Det. [redacted] that Ms. [redacted] Mr. [redacted] Ms. [redacted] and minor child [redacted] were all coherent and appropriate on this date. Detectives confirmed that there were no concerns observed for [redacted] who appeared clean, healthy and free of injury. The family reported to be very protective and expressed dislike for [redacted] JR and reported that they do not have much to do with him as he stays downstairs for the most part.

**NOTE: This police report will be uploaded into the Documents section of the case.

LAW ENFORCEMENT INTERVIEWS WITH MOTHER, AP/FATHER, AND OTHER HOUSEHOLD MEMBERS

The following report is typed, verbatim, from Det. [redacted] ([redacted] PD) report from interviews with [redacted] (mother), [redacted] JR (father/AP), [redacted] (non-relative household member) and [redacted] (maternal grandmother).

On 03-05-2018 at 1330 hours Lt. [redacted] asked multiple detectives to come to the conference room and provided us a briefing of a DCS referral we had received. I learned that 4 month old [redacted] had been brought to [redacted] Medical Center by family and that his condition was so severe it was unknown if he would survive. I learned that it was suspected that [redacted] may have been abused and was in the process of being transported to [redacted] Children's Hospital Emergency Room. Lt. [redacted] asked that I take lead on the case and go to [redacted] with Detective F. [redacted] Sgt. [redacted] stated that he would go to [redacted] Medical Center to interview witnesses there and Detective [redacted] and Detective [redacted] were asked to go to the suspected scene at [redacted] Drive in [redacted]

The DCS referral made by a [redacted] Medical Center staff member stated that 4 month old boy [redacted] lives with his mother and father and was transported by EMS to [redacted] Medical Center at 0920 hours on 03-05-2018. The referral states that he was transported due to being unresponsive with agonal breathing and was near death on arrival. The referral stated that [redacted] skin was cool to the touch and his rectal temperature was 95.1 degrees. The referral stated that [redacted] blood sugar was 205 and there was swelling to his fontanelle, with his pupils contrived and eyes deviated.

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

The referral stated that [redacted] mother, [redacted] and [redacted] father reported that [redacted] had been fine earlier at 8:45 am. The referral states that [redacted] then began to cry, suddenly became limp, and was not breathing well. The referral stated that there were concerns of alcohol use by the parents due to an odor of alcohol being detected when close contact was made with them. There was additional concern because hospital staff had overheard a family member make the statement "let's just stick to that story" when family members were huddled together. For further information on concerns of hospital staff members see Sgt. [redacted] report detailing his interviews with those persons.

Detective [redacted] and I responded to [redacted] Children's Hospital Emergency Room. We initially met with Social Worker [redacted] and Dr. [redacted] who had been involved with this case up to this point. Ms. [redacted] information us that doctors located injuries to [redacted] consistent with abusive head trauma, and bleeding on his brain on both sides. Ms. [redacted] stated that [redacted] parents did not want to be in the room with [redacted] so far since he has been at [redacted] Ms. [redacted] stated that [redacted] mother is [redacted] and his father is [redacted] Ms. [redacted] stated that the statement she got from [redacted] about what happened was that he was playing video games and when [redacted] woke up he changed him, fed him, burped him, and put him back in the bouncer where he was bouncing [redacted] using his foot. She stated that [redacted] stated that [redacted] then just started going '[redacted] ballistic" and then went limp, was barely breathing, and they called 911.

I spoke with Dr. [redacted] who stated that it was not possible that the injuries to [redacted] occurred before dad changed, fed and burped [redacted] Dr. [redacted] described that the effects of [redacted] injuries would have started immediately and he could not have been acting normally as Mr. [redacted] described if the injury had already occurred.

Det. [redacted] and I met and spoke with the family members of [redacted]

**Interview with [redacted] '[redacted]
-[redacted] provided his home address as [redacted] Drive and confirmed that is where this incident occurred.
-Mr. [redacted] stated that he had just lost his job because after he got hired his background came back and they fired him because of a previous criminal charge he had for toxic vapors from when he huffed glue.
-Mr. [redacted] identified the victim as his son, [redacted] (DOB: [redacted].
-Mr.. [redacted] stated that [redacted] was normal until around 5 or 6 this morning.
-Mr. [redacted] stated that he was up [redacted] outside and came back inside and was playing [redacted] on Playstation in the downstairs living room at the house.
-Mr. [redacted] stated that within about 30-45 minutes [redacted] woke up and was just stretching and cooing like he normally does.
-Mr. [redacted] stated that he then picked [redacted] up and changed his diaper in his playpen.
-Mr. [redacted] stated that he then fed [redacted] a bottle with 3 scoops of formula and burped him; getting several good burps out of him.
-Mr. [redacted] stated that he then went to put [redacted] back down in his bouncer where he sleeps and [redacted] started to get upset.
-Mr. [redacted] stated that he then picked [redacted] up, walked around with him, and bounced him and [redacted] started crying worse.
-Mr. [redacted] described that [redacted] was "irate" and '[redacted] pissed". He said that [redacted] face was red and head was hot while he cried hard for about 10 minutes.
-Mr. [redacted] stated that [redacted] then went stiff as a board and Mr. [redacted] put both arms out in front of himself to demonstrate what [redacted] had done.

Tennessee Department of Children's Services

Case Recording Summary

Case Id: [redacted] Case Name: [redacted]

Case Status: Close Organization: [redacted] Region

-Mr. [redacted] described that [redacted] went stiff for a couple of seconds and then went limp and was unresponsive ever since.
-Mr. [redacted] confirmed that this happened around 5 or 6 this morning.
-Mr. [redacted] seemed agitated when I asked further questions or wanted him to repeat what had occurred with more detail but did not seem upset about the incident while [redacted] to him.
-Mr. [redacted] showed me the formula he stated he fed to [redacted] which I photographed; it was Parent's Choice Sensitivity.
-Mr. [redacted] stated that everyone else in the house was sleeping when this happened and there was no one else in the room with him when it happened.
-I asked Mr. [redacted] who all was in the house when this occurred and he stated that [redacted] Ms. [redacted] Ms. [redacted] were in the house with him and that [redacted] may have been there as well.
-Mr. [redacted] stated that when [redacted] went limp he went in to the bedroom and woke his fiance, [redacted] up and told her what happened. Mr. [redacted] stated that he then called 911 and reported it.
-Mr. [redacted] stated that he has no idea what happened to [redacted] and did not drop [redacted] or do anything else that could have caused any injury to [redacted]
-Mr. [redacted] stated that the doctors are saying that there is trauma and bleeding in multiple places and he has no idea what could have cause those injuries.
-Mr. [redacted] stated that the outside rim of [redacted] bouncer on both sides is metal pipes but he stated that he does not bounce [redacted] hard enough for him to hit the metal pipes.
-Mr. [redacted] stated that he does not have any other children. Mr. [redacted] then started [redacted] about how he had wanted to have a little girl and to name her '[redacted] Mr. [redacted] smiled while he talked about how he wanted a little girl and stated that '[redacted] was his fiance's name choice.

**Interview with [redacted]
-[redacted] is [redacted] mother and [redacted] fiance.
-[redacted] stated that she had no idea what happened and all she knew is that [redacted] woke her up telling her that something was wrong with [redacted]
-[redacted] stated that [redacted] is a happy baby who loves her but [redacted] complains that she spoils [redacted]
-[redacted] stated that she was sleeping in the downstairs master bedroom when [redacted] came in and told her something was wrong with [redacted]
-[redacted] stated that they went into the living room and [redacted] was barely breathing and they called 911.
-I asked [redacted] if she thought someone may have done something to [redacted] and she referred to how his little cousin likes to [redacted] on [redacted]
-[redacted] described that they take shifts with [redacted] and that she typically is up with [redacted] from approximately 12:00-1:00 in the afternoon until around 7:00 in the morning. She stated that she usually sleeps from around 7:00am until 12:00 or 1:00 pm.
-I asked [redacted] what [redacted] told her happened and she stated that [redacted] had come in from [redacted] a cigarette and about 30 minutes later [redacted] woke up hungry. [redacted] stated that [redacted] said he fed [redacted] a bottle, burped him, and tried to put him back in his bouncer so he could go to sleep. [redacted] stated that [redacted] said [redacted] was almost asleep when he just started wailing and wouldn't stop crying no matter what. [redacted] stated that [redacted] said that [redacted] then seized up and went limp.
-I asked [redacted] how [redacted] was as a father and she said he was fantastic. [redacted] then said that [redacted] gets frustrated with [redacted] and that [redacted] says that [redacted] hates him.
-[redacted] stated that [redacted] gets frustrated with [redacted] like every parent does and described that [redacted] gets frustrated when [redacted] is crying and he tries everything but can't get him to stop. She stated that [redacted] gets frustrated because [redacted] can't figure out what's wrong but when she takes [redacted] he stops crying.
-I asked [redacted] if she heard any of the crying or heard anything going on in the living room this morning prior to being woken up by [redacted] and she stated that she didn't.

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

-I asked [redacted] when she went to bed and she stated that she had no clue but estimated around 3:00 am.
-I asked [redacted] if she or [redacted] used any drugs or alcohol and she stated that they did drink last night but have not used any drugs.
-[redacted] stated that she had two beers and one mixed drink between approximately 2100 and 2400 hours the night before and was "tipsy".
-[redacted] stated that [redacted] had roughly one beer and 1 1/2 mixed drinks during the same time frame she was [redacted]
-[redacted] stated that she has manic depressive bipolar disorder but stopped [redacted] her medication. She stated that [redacted] has ADHD.
-[redacted] stated that when [redacted] gets frustrated with [redacted] he gives [redacted] to her and takes a break.
-I asked [redacted] if there was a time when she was concerned with how frustrated [redacted] became with [redacted] and she stated that there was one time when [redacted] pushed [redacted] hands down away from his bottle more forcefully than necessary and described that she has done the same thing.

Dr. [redacted] from the CARE Team knocked on the door of the room where I was meeting with [redacted] and I went outside the room and spoke with her. Dr. [redacted] provided me some preliminary information of what she knew about [redacted] and stated that from what they have done with [redacted] so far she is confident that the injuries are a result of abusive head trauma. She stated that [redacted] brain is severely damaged and his injuries would be a result of being violently shaken or thrown down onto a soft surface. Dr. [redacted] stated that [redacted] has bruising above both eyes and bruising on the back of his head. I asked Dr. [redacted] if [redacted] would survive and she stated that there was still much to do but from what she knew at that point it could be possible that he would survive. Dr. [redacted] stated that even if [redacted] was able to survive there would be severe long term effects severely reducing any quality of life [redacted] could have due to the damage to his brain.

I returned to the room where [redacted] remained [redacted] with Det. [redacted] while I was [redacted] with Dr. [redacted]

-I asked [redacted] around what time [redacted] woke her up this morning and she stated it was "7'ish".
-I asked [redacted] who was in the house when this occurred and she stated: [redacted] ([redacted] grandmother's boyfriend), [redacted] ([redacted] sister), [redacted] (2 yoa, [redacted] cousin), [redacted] ([redacted] mom), [redacted] ([redacted] friend / [redacted] godmother), [redacted] [redacted] and herself.
-I asked [redacted] who was at the hospital with them and she stated it was [redacted] mom, [redacted] brother, [redacted] [redacted] [redacted] and [redacted]

**Interview with [redacted] [redacted]
-[redacted] stated that [redacted] is her best friend for 10 plus years and [redacted] has been a close family friend for many years.
-[redacted] stated that she just recently moved into the house and has been staying there for four days.
-[redacted] stated that she drank 3 mixed drinks the night before (rum mixed with Mtn. Dew) and [redacted] drank Maker's Mark mixed with Coke.
-I asked her how much [redacted] had to drink and she said she believed it was just one medium sized McDonald's cup of Maker's Mark mixed with Coke.
-[redacted] stated that she slept in the bed with [redacted] overnight and went to bed at approximately 2:00AM.
-[redacted] stated that [redacted] stayed in the living room with [redacted] overnight and that she didn't hear anything at all until [redacted] came into the room to wake [redacted] up this morning saying something was wrong with [redacted]
-[redacted] stated that [redacted] said he didn't sleep at all last night and that he stayed up with [redacted]
-I asked [redacted] if there was anything that concerned her about either of [redacted] parents.
-[redacted] stated that she usually sleeps on the couch and [redacted] usually stays in the living room overnight and sometimes she wakes up in the middle of the night and [redacted] is just screaming and [redacted] can't get him to stop.

Tennessee Department of Children's Services

Case Recording Summary

Case Id: [redacted] Case Name: [redacted]

Case Status: Close Organization: [redacted] Region

[redacted] stated that that is the only time she has ever seen [redacted] scream that way.
-[redacted] stated that [redacted] is convinced that [redacted] doesn't like him. [redacted] stated that she is a mother of two and she has never seen a baby that can't be comforted that isn't sick in some way other than these situations when [redacted] is with [redacted]
-[redacted] stated that [redacted] said that he was feeding [redacted] and that [redacted] spit the bottle out, got really mad, and started screaming. She stated that [redacted] said that while [redacted] was trying to get [redacted] to calm down, [redacted] just went limp.
-[redacted] stated that [redacted] is not normally hard to console when he is crying except when [redacted] is with [redacted] who has a lot of difficulty consoling [redacted]
-[redacted] stated that she is the one who called 911.
-[redacted] stated that she saw [redacted] last night, awake, and that he was fine. She stated that he fussed for a bottle, ate, and seemed fine. She stated that she even played with [redacted] some last night.
-[redacted] stated that she is worried because [redacted] told her last night that she doesn't like leaving [redacted] with [redacted] because she worries that [redacted] will get frustrated and that something bad is going to happen. [redacted] stated that [redacted] told her this the night before during the time that they were [redacted]
-[redacted] stated that everyone else was in bed overnight and [redacted] was alone with [redacted]
-[redacted] stated that [redacted] is her godchild.
-[redacted] stated that [redacted] does not get bounced hard in the bouncer and it has not concerned her when she has seen [redacted] being bounced.
-[redacted] stated that she did not know anything about anyone [redacted] a comment at [redacted] Medical Center in reference to [redacted] to the story.

**Interview with [redacted]
-[redacted] stated that she is the homeowner at [redacted] Drive and that [redacted] is her daughter and [redacted] is her grandson.
-[redacted] stated that she does not drink and did not drink the night before when others were.
-[redacted] stated that she went to bed at 10 or 10:15 the night before in the upstairs master bedroom.
-[redacted] stated that she thinks [redacted] and [redacted] are engaged but not really sure and stated "they have their moments".
-[redacted] stated that she played with [redacted] before bed the night before and he was fine.
-[redacted] stated that [redacted] doesn't do anything yet. She stated that he cannot roll over or crawl.
-[redacted] stated that she didn't think [redacted] was very fond of [redacted] She stated that [redacted] scream a lot pretty much anytime [redacted] has him and it seems like it's only when [redacted] has him.
-[redacted] stated that she is concerned about the way [redacted] cares for [redacted] because she doesn't think it's normal for a child to cry that much when one of their parents holds them but she had not seen [redacted] do anything inappropriate toward [redacted]
-[redacted] described that [redacted] and [redacted] take shifts watching [redacted] overnight.
-[redacted] believes it was around 7:30 to 8:00 this morning when she was awoken and told that [redacted] wasn't breathing. She said she was woken up about 5 minutes before the ambulance got there.
-[redacted] described that [redacted] does sometimes get frustrated with [redacted] and sometimes goes outside to smoke while [redacted] is crying. [redacted] stated that she has not seen [redacted] hurt [redacted] before but she does not go downstairs a lot.

**Interview with [redacted]
-I asked [redacted] about her telling [redacted] the night before that she did not like leaving [redacted] with [redacted] because of how [redacted] becomes frustrated with him.
-[redacted] stated that [redacted] gets frustrated with [redacted] all the time and says that [redacted] hates him.
-[redacted] stated that [redacted] gets frustrated that he can't calm [redacted] down even if [redacted] does the same things

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

[redacted] does which calm [redacted] down when she has him.
-I asked [redacted] about bruises that had been on [redacted] a few weeks earlier and she described a time where [redacted] started to fall off the couch and she and [redacted] went to catch him and did. She stated she believed the bruises on [redacted] head came from their hands when they caught [redacted]

**Interview with [redacted]
-[redacted] stated that he was awake all night in the living room with [redacted] and [redacted] was sleeping normally until he woke up.
-[redacted] confirmed that [redacted] was in his arms the entire time from when he started crying, went stiff, and then went unresponsive.
-[redacted] confirmed that there was not anything that happened around that time that could have caused injury to [redacted]
-[redacted] stated that [redacted] would scream and cry when he picked [redacted] up but [redacted] would stop crying as soon as he would hand [redacted] off to someone else.
-[redacted] stated that he didn't think that [redacted] liked him too much because of that.
-I asked [redacted] about the bruises that had been on [redacted] head a few weeks earlier and [redacted] said that he would have [redacted] laying on him and when [redacted] would lay back [redacted] would hit his head on [redacted] collarbone and it would leave bruises on [redacted] head.
-[redacted] confirmed that [redacted] was still acting normal after he changed, fed, and burped him.
-[redacted] confirmed that he then put him back in the bouncer and softly bounced him with his foot and demonstrated how he did it.
-[redacted] described that [redacted] started crying for about ten minutes and said "his [redacted] face was getting cherry [redacted] red", then "just stiff as a [redacted] board" and then he "went completely [redacted] limp".
-[redacted] stated that about a minute after [redacted] went unresponsive he went and woke up [redacted] and then he got the phone and called 911.
-I explained to [redacted] that the injury to [redacted] would have affected [redacted] immediately and didn't happen hours or a week earlier. [redacted] responded to this by saying "so I hurt him?"
-I explained to [redacted] that the injury to [redacted] would have had to happen during the time that he had [redacted]
-[redacted] stated that he had about two mixed drinks last night and that they were Maker's Mark mixed with Cherry RC.
[redacted] confirmed that it was the McDonald's cup that he was [redacted] them out of but stated that it was not full.
-[redacted] started laughing and said "I see. I freaked out because it was getting to be too much and I threw him against the wall, I dropped him, I punched him, I hit him, what's really going on here?"
-[redacted] estimated that everyone else went to bed around 12:30 or 1:00AM when they all came in from [redacted] outside.
-[redacted] said that he played [redacted] in the living room and stayed up with [redacted] until this happened around five or six in the morning.
-I asked [redacted] if he smoked again before this happened or just when they were all outside [redacted] and he said that he had just smoked when they were out [redacted] and had said that he had just smoked when they were out [redacted] and had stayed in the living room with [redacted] from then until 5 or 6 when [redacted] woke up.
-[redacted] denied that he had done anything to cause these injuries to [redacted] as I explained to him with the story he provided there is no other person who could have caused the injuries.
-[redacted] began [redacted] me what the charge was an I responded that he was not under arrest. [redacted] stated that he knew that and then asked "what is the charge that comes with what I supposedly did to my kid?"
-I explained to [redacted] that he is saying that he didn't do anything to his kid and that there is a difference between someone who intentionally hurts their child and someone who accidentally hurts their child and [redacted] laughed and stated "you're still going to jail dude, even if it was an accident, you don't accidentally shake your child."

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

-[redacted] again asked what the charge is if someone accidentally did this and I explained that I didn't know because there are so many variables.
-I explained to [redacted] that without him telling me what happened all I would have to go on is the medical evidence of what the doctors say and him saying nothing happened. I explained that with the doctors saying that what he is describing is not possible that leaves me with one person lying and medical evidence. [redacted] responded with "mmhmm". I told [redacted] that the fact that he is lying does not look good for him and [redacted] responded "that still doesn't answer my question". I said "your question about what?" and [redacted] started laughing, and I said "what the charge it?" and [redacted] responded "yeah, what's the charge on that?". I responded my answer to that was "I don't know". [redacted] responded "so you're a detective?" and I said "yes" and he said "wow, that's [redacted] amazing" and started laughing. [redacted] then said "alright buddy, are we just gonna keep going around in a circle"? I provided [redacted] with my name and contact number and asked him to call me with any information and [redacted] responded "I'm pretty sure I won't".
-[redacted] then left the room to meet family members of his and remarked "at least I didn't punch either of them".

I left [redacted] Children's Hospital late on 03-05-2018 and [redacted] location was unknown at that time. On 03-06-2018 at 1423 hours I received a call from Dr. [redacted] updating me on [redacted] condition. Dr. [redacted] stated that [redacted] MRI looked terrible and that all of his brain was in bad condition. Dr. [redacted] confirmed there was substantial swelling and bleeding on the brain and bleeding around the spinal cord on his neck. Dr. [redacted] also discussed a concern that there was a delay in [redacted] medical treatment for [redacted] due to there being evidence of a lack of oxygen for a prolonged period of time. Dr. [redacted] stated that [redacted] surviving was not likely and that if he did survive he would not function normally. Dr. [redacted] stated that the abuse to [redacted] caused him to stop breathing which caused the lack of oxygen.

This evidence of a lack of oxygen for a prolonged period creates additional issues with the truthfulness of [redacted] statement. [redacted] stated that he immediately woke up [redacted] when [redacted] became unresponsive and that they then called 911.

On 03-06-2018 I received a voicemail from [redacted] and called him back. He answered and stated he would call me back in a few minutes. Moments later I received notification from a secretary that [redacted] had called back so I called him back. [redacted] stated that he was letting me know that he was not the only one [redacted] care of [redacted] that night. He stated that [redacted] was the only one [redacted] care of [redacted] most of the day and [redacted] was [redacted] care of him while they were all outside [redacted]

[redacted] stated that once everyone went to sleep he was watching [redacted] by himself the rest of the night. [redacted] estimated that he was watching [redacted] by himself from approximately 1:00AM on through the night. [redacted] confirmed that he believes it was around 5:00-6:00AM when [redacted] woke up and he changed, fed, and burped him. [redacted] confirmed that [redacted] was acting normally at this time. [redacted] informed me he needed to take another call at this time and would call me back.

On 03-06-2018 I received a faxed medical record for [redacted] from Social Worker [redacted] at [redacted] Children's Hospital. On 03-07-2018 I received Dr. [redacted] medical notes on [redacted] by fax from [redacted] Children's Hospital Social Worker [redacted]

In Dr. [redacted] medical notes she documents her meetings with [redacted] parents, [redacted] past medical history, their family history, and other valuable information. The medical notes from Dr. [redacted] diagnosed [redacted] injuries as Abusive Head Trauma causing very severe brain injury. The notes also mention that in addition to the abusive event it is very likely if not certain that he sustained additional injury due to hypoxia (lack of oxygen) prior to [redacted] medical care. The notes indicate that the abusive head trauma findings are consistent with the infant

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

being violently shaken, thrown/slammed, or a combination of both by a frustrated caregiver. Dr. [redacted] also notes that [redacted] statement that [redacted] woke up and had a normal feeding and a successful burping would indicate the injury had not yet occurred since injuries of this type are "immediately and persistently symptomatic" and they would not be able to act or eat normally.

On 03-08-2018 at 0647 [redacted] was pronounced dead. An autopsy would be performed but was somewhat delayed due to [redacted] being an organ donor.

On 03-10-2018 at 1430 hours I attended the autopsy of [redacted] at the Medical Examiner's Office conducted by Dr. [redacted] Dr. [redacted] briefed me on what he had seen after the autopsy and informed me he had observed bilateral subdural hematomas, a lot of brain swelling, and a bucket handle fracture on the leg. Dr. [redacted] stated his observations to this point were consistent with abuse.

I have met with the District Attorney's Office in reference to this case. I will present charges against [redacted] to the April 2018 grand jury.

I request this case move to pending court.

End of Report.

**NOTE: This police report will be uploaded into the Documents section of the case.

OPENING CASE SUMMARY

The referral stated that there is an allegation of severe physical abuse that has occurred. The referral stated the alleged child victim is [redacted] and the alleged perpetrator is Unknown.

CASE NOTIFICATION:
Notification of case was sent to the [redacted] County Juvenile Court Judge Judge [redacted]
Notification of severe abuse case was sent to DA [redacted] CAC Director [redacted] and law enforcement partners.

HOUSEHOLD COMPOSITION:
ACV [redacted] resides with his biological mother ([redacted] and the biological father ([redacted] JR). Also living in the home is the maternal grandmother ([redacted] the grandmothers paramour ([redacted] maternal great-grandmother ([redacted] a maternal aunt ([redacted] the aunts paramour (name unknown), and a minor cousin ([redacted] / age 2). It is possible other individuals reside in the home but this is not confirmed. A family friend ([redacted] was also visiting and staying at the home at the time of the incident.

CASE ASSIGNMENT

Reporter states (typed verbatim):
[redacted] (4 mos) lives with his mother, [redacted] his father, Unknown, his maternal grandmother, [redacted] (44), and [redacted] paramour, [redacted] in [redacted] County; also in the home is his cousin, Unknown (2), his maternal aunt, Unknown, and the aunts paramour, Unknown. It is possible that

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

other individuals live in the home but their information is unknown. [redacted] has previously been treated at the [redacted] Emergency Room for mental health and stability but it is unknown if anyone else involved has any special needs or disabilities.

At 9:20 AM CST on 3/5/2018, [redacted] was transported via EMS to the [redacted] Emergency Room due to being unresponsive with agonal breathing. Upon arrival, [redacted] was near death: his skin was cool to the touch, his rectal temperature was 95.1 °F and his blood sugar was 205. [redacted] is being incubated. It appears that there is some swelling to his fontanelle. His pupils are contrived and his eyes are deviated. He was observed with a petechial rash around both of his eyes, a very soiled diaper with a small amount of stool that did not appear to be from a recent bowel movement and a brown color to his testicles; it is unknown why [redacted] testicles have a brown discoloration. There was no other bruising or skin impairments noted. It is unknown why [redacted] is having the medical issues that he is having. [redacted] will undergo further tests and it is possible that [redacted] will be tested for new onset seizures.

[redacted] and the father reported that [redacted] had been fine when he was observed earlier at 8:45 AM. The parents stated that [redacted] began to cry, suddenly became limp and was not breathing well. An unknown person at the home contacted 911. The family did not report if [redacted] had experienced any recent falls or trauma. The family denied if [redacted] has been [redacted] any type of medication. [redacted] does not have a medical history of any recent illnesses in the last couple of weeks. A month ago, [redacted] was seen at the [redacted] Emergency Department due to having a fever and experiencing flu-like symptoms; [redacted] tested negative for flu and RSV. [redacted] primary care physician is Dr. [redacted]

[redacted] was observed to be very unkempt and was observed to have stains on her clothing. There are concerns of possible alcohol ingestion by [redacted] and the father due to an odor of alcohol being smelled when close contact was made. It was difficult to tell who smelled like alcohol because [redacted] parents, [redacted] and another female individual, Unknown, were standing close to each other when the alcohol was smelled. No one exhibited any behaviors that would suggest that they were under the influence of a substance. It is unknown if anyone involved has a history of substance abuse. It is unknown if there have ever been any child fatalities at the familys home. There is no other information known regarding the other child that is in the home. It is unknown if the family has ever been involved with the Department of Childrens Services or Law Enforcement.

There is concern because the family was observed huddled together when two nurses, [redacted] and [redacted] Emergency Department/[redacted] overhead someone in the huddle state, Lets just stick to that story.

At this time, [redacted] is still considered near death and he will be transported to the [redacted] Childrens Hospital for further treatment. [redacted] appeared to be distraught. Immediate Assistance is not requested of DCS.

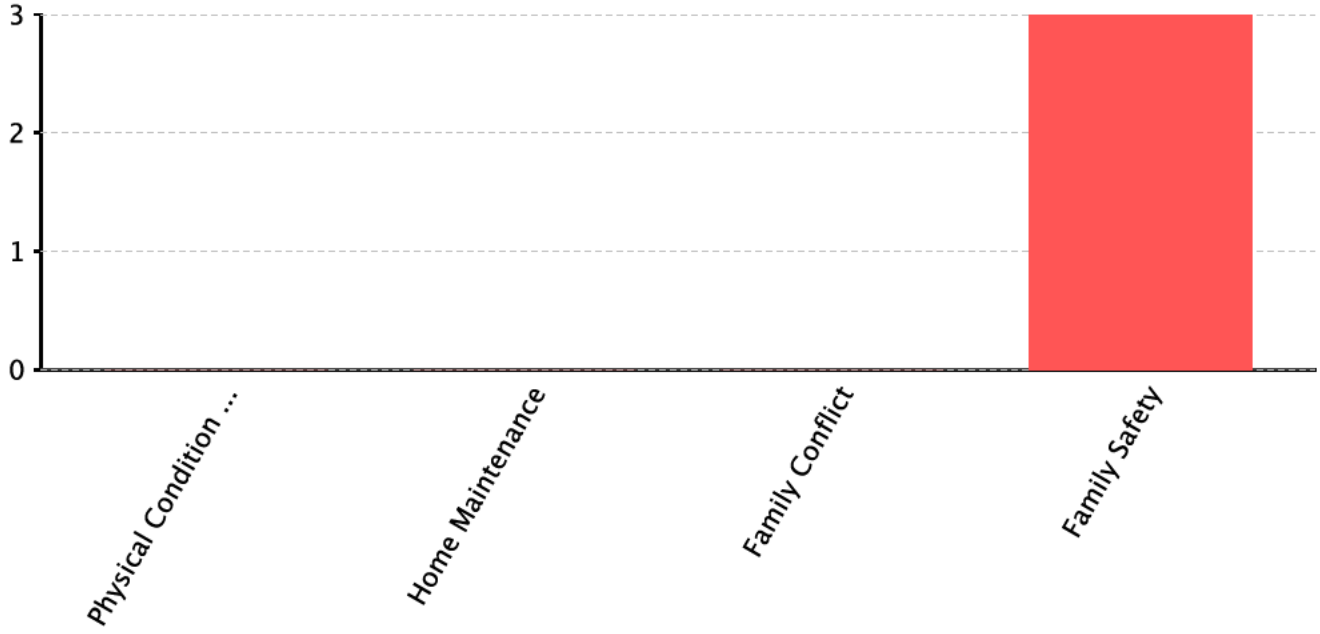
THE FAMILY TOGETHER

This section focuses on the family system. The first step is to define who makes up the family. Generally it is a household but sometimes two households in which the children spend considerable amounts of time could be considered (e.g. divorced parents with 50:50 visitation).



Item	Score	Justification/Narrative
Physical Condition of Home	0	
Home Maintenance	0	
Family Conflict	0	
Family Safety	3	ACV is currently in PICU due to significant brain injury and suspected abusive head trauma.
