On April 4, 2018, the Department of Childrens Services (DCS) received a referral for the allegation of Abuse Death regarding Alleged Child Victim (ACV) [redacted] (3). The Alleged Perpetrator (AP) was unknown at the time of the referral but was later identified as the maternal step grandfather, [redacted] with the allegation of Lack of Supervision also added. This case was assigned to Child Protective Services Investigator (CPSI) [redacted] by Lead Investigator (LI) [redacted] This case was worked in conjunction with [redacted] County Sheriffs Department ([redacted] Detective [redacted]

[redacted] (3) lived at home with her mother, [redacted] and father, [redacted] and sibling, [redacted] (1 month).

On April 3, 2018, [redacted] County Sheriffs Office responded to the home regarding a lawnmower accident. It was reported [redacted] had been run over by a riding lawn mower in the familys yard. [redacted] was pronounced deceased by Dr. [redacted] at 19:29 hours on April 3, 2018. [redacted] was transported to the morgue at [redacted] Health Care in [redacted]

On April 4, 2018, CPSI [redacted] accompanied Detective [redacted] to speak with the parents regarding the incident. Due to the family being non-English speaking, Detective [redacted] acted as a translator for CPSI [redacted] While speaking with the father, Mr. [redacted] Detective [redacted] reported seeing [redacted] 6, playing on his father's zero turn lawnmower, as he has done in the past. Mr. [redacted] reported the child rides around the yard on the lawnmower almost daily. Mr. [redacted] reported that he, and a neighbor, [redacted] have spoken to Mr. [redacted] as to the dangers of having his child "playing" on the lawnmower. Mr. [redacted] reported the child's father; [redacted] does not take their concerns seriously. Mr. [redacted] reported he observed Mr. [redacted] children playing on the lawnmower with [redacted] on the afternoon of April 3, and began walking over to Mr. [redacted] residence to again voice his concerns as to the children's safety. Mr. [redacted] reported unknowingly, his daughter, [redacted] 3, was following behind him. Mr. [redacted] reported observing Mr. [redacted] daughter "jumping off" the lawnmower, [redacted] was driving. residence to call 911. The mother, Ms. [redacted] was inside the residence feeding the infant at the time of the incident. CPSI [redacted] linked the family to grief counseling services. HUGS and [redacted] services were also involved with the family.

Detective [redacted] was able to locate and interview the alleged perpetrator, [redacted] who was visibly upset about the incident and remorseful. Additionally, attempts were made to assess safety of any children in the home or care of Mr. [redacted] Due to the language barrier, [redacted] the Hispanic community liaison assisted Investigator [redacted] in completing a home visit. Mr. [redacted] was able to arrange for the child, [redacted] to be on home bound for the remainder of the school year due to trauma from the incident. Services were discussed with the family, and counseling was arranged for [redacted] through [redacted] coordinated by Mr. [redacted] No DCS history was found regarding this family. Upon final visit with the ACV family, they reported no need for additional services and they were in the process of moving to Mexico.
On June 8, 2018, the final autopsy was received for [redacted] The autopsy stated the cause of death was multiple sharp and blunt force injuries. The manner of death was found to be accidental.

On June 28, 2018 CPSI [redacted] presented this case to [redacted] County Child Protective Investigative Team (CPIT). Those in attendance were; LI, [redacted] ADA, [redacted] Juvenile Court Liaison, [redacted] and [redacted] County Detective, [redacted] The team was in agreement that there was not a preponderance to support the allegation of Abuse Death.

According to DCS Policy Chapter 14, Work Aid 1, Section E, Child Death is defined as:
a) Any child death caused by abuse or neglect.
b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
c) Any child death caused by abuse or neglect resulting from the parent or legal custodian/caretaker failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.
2. A near death, per Tennessee Code Annotated (TCA) 37-5-107(c)(4) is defined as a serious or critical medical condition resulting from abuse, neglect or child sexual abuse, as reported by a physician who has examined the child subsequent to the abuse or neglect.

According to DCS Policy Chapter 14, Work Aid 1, Section B, Lack of Supervision is defined as:
Failure to provide adequate supervision, by a parent or other legal custodian/caretaker, who is able to do so. A lack of supervision allegation or determination means that:
a) The child has been placed in a situation that requires actions beyond the childs level of maturity, physical ability, and/or mental ability; or
b) Caregiver inadequately supervises a child. The caregiver is with the child, but is unable or unwilling to supervise (e.g., the caregiver is under the influence of alcohol or drugs, is depressed, sleeps during the day or has inadequate parenting knowledge or skills).
c) Any registered sex offender residing in the home with unrelated minor children or victim of offender and/or caregiver knowingly resides with and/or allows children to be unsupervised with a registered sex offender.

There is not a preponderance of evidence to support the allegation on Abuse Death or Lack of Supervision. This case will be closed and classified as Allegation Unsubstantiated, Perpetrator Unsubstantiated for the allegations of Abuse Death and Lack of Supervision regarding ACV [redacted]

upset about the incident and remorseful. Additionally, attempts were made to assess safety of any children in the home or care of Mr. [redacted] but were unsuccessful. No DCS history was found regarding this family.
On June 8, 2018, the final autopsy was received for [redacted] The autopsy stated the cause of death was multiple sharp and blunt force injuries. The manner of death was found to be accidental.
On June 28, 2018 CPSI [redacted] presented this case to [redacted] County Child Protective Investigative Team (CPIT). Those in attendance were; LI, [redacted] ADA, [redacted] Juvenile Court Liaison, [redacted] and [redacted] County Detective, [redacted] The team was in agreement that there was not a preponderance to support the allegation of Abuse Death.
According to DCS Policy Chapter 14, Work Aid 1, Section E, Child Death is defined as:
a) Any child death caused by abuse or neglect.
b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
c) Any child death caused by abuse or neglect resulting from the parent or legal custodian/caretaker failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.
2. A near death, per Tennessee Code Annotated (TCA) 37-5-107(c)(4) is defined as a serious or critical medical condition resulting from abuse, neglect or child sexual abuse, as reported by a physician who has examined the child subsequent to the abuse or neglect.

According to DCS Policy Chapter 14, Work Aid 1, Section B, Lack of Supervision is defined as:
Failure to provide adequate supervision, by a parent or other legal custodian/caretaker, who is able to do so. A lack of supervision allegation or determination means that:
a) The child has been placed in a situation that requires actions beyond the childs level of maturity, physical ability, and/or mental ability; or
b) Caregiver inadequately supervises a child. The caregiver is with the child, but is unable or unwilling to supervise (e.g., the caregiver is under the influence of alcohol or drugs, is depressed, sleeps during the day or has inadequate parenting knowledge or skills).
c) Any registered sex offender residing in the home with unrelated minor children or victim of offender and/or caregiver knowingly resides with and/or allows children to be unsupervised with a registered sex offender.

There is not a preponderance of evidence to support the allegation on Abuse Death or Lack of Supervision. This case will be closed and classified as Allegation Unsubstantiated, Perpetrator Unsubstantiated for the Abuse Death and Lack of Supervision regarding ACV [redacted]

Investigator [redacted] spoke to the father, [redacted] outside of the home due to Mr. [redacted] being the eye witness to the incident. Mr. [redacted] requested to speak outside so to not upset the mother more. While inside the home, the Mother, Ms. [redacted] was visibly upset, holding a stuffed animal of the deceased child's and rocking back and forth, while speaking to the stuffed animal, symbolically as if the stuffed animal was the deceased child. Ms. [redacted] was apologizing to the stuffed animal, asking what she had done wrong, praying, and asking for forgiveness from the child, as reported by the unknown cousin.

While speaking with the Father, Mr. [redacted] Investigator [redacted] reported seeing [redacted] 6, playing on his father's zero turn lawnmower as he has done in the past. While at the home, Investigator [redacted] was able to observe the home and the infant child, [redacted] in the infant carrier. An Unknown Paternal Aunt and Cousin were caring for the child while Ms. [redacted] was unable to do. There were no concerns observed in the home as evidenced by the home being clean and free of clutter. Investigator [redacted] observed a pack-n-play in the living room where the child sleeps during the day along with baby formula, bottles, specific cleaning items for the infant child, bathing products, diapers, wipes, clothes and blankets for the child. Inv. [redacted] also observed both perishable and non-perishable boxed/canned foods as well as fruits and vegetables inside home for the adults and deceased ACV.

LI [redacted] spoke with Det. [redacted] County Sheriffs Dept, at 7:00 am to get information about the fatality called in on 4/3/2018. Det. [redacted] reported that she was called to the scene last evening and the child was deceased. It was learned that the uncle and maternal grandmothers paramour have a mowing busy with commercial zero turn mowers with approx. 60 inch blade range. Det. [redacted] reported that a 6 year old cousin to the ACV who is the child of the previously mentioned uncle is said to play on the mowers and use them for toys. As the mowers were being taken off the trailer (still running with the blade engaged) the 6 year old hopped one of the mowers and accidently ran over the 3 year old killing her. Det. [redacted] said the parents were in no way at fault and that this incident occurred, with the father who had been outside with the 3 year old while she played, watching. Det. [redacted] said it was a horrific scene, one of the worst of her career, with only pieces of the child left in place. She reported the uncle had fled the scene and taken the 6 year old with him before the police arrived. She said the DAs office has been contacted about charging the uncle with child neglect for allowing the 6 year old to play on the mowers resulting in this death. She reported that the family speaks only Spanish. She said that Detective [redacted] from the sheriffs dept would take lead on the investigation because he speaks Spanish fluently. LI [redacted] discussed with Det. [redacted] the need to call in a referral on the 6 year old and his father (uncle) who allowed the child to play on the mower with allegations of lack of supervision as a companion to this case. She agreed that this should occur and said Det. [redacted] would have all the information concerning the 6 year old later today.

This case has been assigned to Inv [redacted] who is currently at the residence with Det. [redacted]
