Date: 04/04/2014

Team Leader: ██████████

Date: 04/07/2014

E. Investigation Summary

Instruction: Condense the finding rationale for each allegation relative to the child victim(s). Be sure to identify the facts that provided for the classification decision.

Summarize the key points and dates of the child or children's statements and/or the observation of the child or children's physical state or home environment:

1/7/14 ██████████ had a forensic interview on this date. In summary: ██████████ had a forensic interview on the above date and time. The following is a summary of the interview:

Child stated that his little sister ██████████ stopped breathing. He stated that his one year old brother, ██████████ pulled ██████████ out of her bed and she hit her head on the pole of the bed. He stated this had happened the same day that ██████████ stopped breathing. He stated he did not see this happen. rough with her and that ██████████ had kicked her bottle in her mouth which hurt her gums. He made no other statements regarding ██████████ himself or his siblings. Child gave no disclosure of abuse.

██████████ had a forensic interview on 1/7/14. In summary:

Child stated that his baby boy, ██████████ pulled ██████████ his baby girl off his mamas bed onto the floor and she died. He stated that ██████████ did this to her two times. ██████████ also stated his mother was at the doctor when it happened

No disclosure of abuse was made by child.

Summarize professional, medical or psychological findings or opinions: What is the collateral's oral or written finding/opinion of the incident(s)/allegation(s)?

A medical exam followed the interviews for ██████████ and ██████████. The medical was performed by PNP ██████████. The exam was reported to be normal.

Summarize alleged perpetrator's statement or admission: What is the perpetrator's explanation of the incident(s)/allegation(s)?

CM received a phone call from Detective ██████████ who advised the mother and father of ██████████ had been interviewed by Detective ██████████ and currently were not suspects. He was unable to provide CM the name of the father at this time as he had already left the police station. He did report the mother, ██████████ was arrested on an old warrant (unrelated to this investigation) and taken to jail.

Summarize witnesses' descriptions of what they saw and what they believe indicates child abuse/neglect:

There were no reported witnesses. However; ██████████, sibling to ██████████ disclosed in his forensic interview he had seen ██████████ kick a bottle out of ██████████ mouth before which hurt her gums.

Summarize any other evidence or factors that support the investigative finding(s) for the allegation(s) of abuse/neglect:

Referral received on 1/5/2014 with allegations of psychological harm, neglect death and sexual abuse. ██████████ was found by her mother, ██████████, in a comforter by the side of her bed unresponsive. She performed CPR and contacted 911. ██████████ was taken by EMS to ██████████ CH and pronounced dead. The investigation into the death was handled by CPD Detective ██████████. He advised Ms. ██████████ had left ██████████ (on her bed) and her younger sibling ██████████ in a crib beside the bed) unattended in her bedroom while she left the room to use the telephone. Per ██████████ report, Ms. ██████████ returned to the room (reported to be about 15 minutes later) and

Tennessee Department of Children's Services
Child Protective Service Investigation Summary
and Classification Decision of Child Abuse/Neglect Referral

Case Name : ██████████

Investigation ID: ██████████

found ██████████ wrapped in a comforter beside her bed unresponsive. Although Ms. ██████████ was deemed not a suspect, she had prior knowledge that ██████████ was known to "pull" on ██████████. Forensic interviews of siblings ██████████ and ██████████ were held and the children indicated knowledge that ██████████ pulled on ██████████ and once kicked a bottle out of her mouth. An autopsy was completed and determined the cause of death to be accidental positional asphyxia: entrapment in bedding and wedging between beds.

History with the Department includes a 2012 assessment case where police were called to the home and found ██████████, age 7, ██████████ age 3 and ██████████ 2 months home alone. The assessment case was classified as no services needed and mother returned to the home while the police were still on the scene. Due to the history with the Department along with mother's knowledge of ██████████ "pulling" on ██████████ lack of supervision was added as an allegation to this investigation. Case was discussed at CPIT on 4/2/14 and classified as allegations substantiated/ perpetrator substantiated for lack of supervision. In regards to the sexual abuse allegations- there were no findings in the autopsy. Along with sibling interviews and medical exams there were also no disclosures or findings of sexual abuse. CPIT classified the sexual abuse allegations as allegations unsubstantiated/ perpetrator unsubstantiated. The neglect death classification was also unsubstantiated as it was deemed to be accidental. Case recommended for closure.

Detective [REDACTED] advised the children had been placed with grandparents prior to police/DCS involvement. He provided the following addresses for the other children in the home:

[REDACTED] has [REDACTED] in her care.
 [REDACTED] has [REDACTED] and [REDACTED] in her care.

Due to weather conditions of ice/snow, Detective [REDACTED] visited these homes and checked on the welfare of these children. He gave a return phone to CM at 2:44am and advised children appeared to be healthy and clean and in safe environments.

CM to schedule forensic interviews and medical exams for the children and notify him of the scheduled appointment time.
