**Describe (in detail) interview with family:**

On August 9, 2014 ██████████ ██████████ ██████████ and ██████████ responded to the scene of the incident. These detectives reported that they gathered information from the child's parents and other persons who were at the home at the time of this incident. According to the ██████████ County Sheriff's Department, ██████████ parents and other persons on scene, the family was attending a pool party at the home of a friend named ██████████ It was reported that 2 other children who were attending the party entered ██████████ pool, and found ██████████ at the bottom of the pool when he stepped on ██████████ body. One of the boys stepped on something at the bottom of the pool and swan and found ██████████ and pulled his body to the surface of the water where he was met by adults including ██████████ parents and the homeowner. It is reported that the homeowner, who is a medical professional performed CPR and chest compressions until Emergency Medical Techicians arrived at the home. ██████████ was transported to ██████████ by ambulance, where he was pronounced dead. The address where the incident occurred, according to law enforcement is ██████████. It was reported by law enforcement that ██████████ parents, ██████████ (mother) and ██████████ (father) were interviewed and were very obviously shocked and grief stricken during initial contact with them.

This Investigator initiated this case at the family home on August 19, 2014. Mr. ██████████ answered the door to the family home and reported that he and his wife declined to be interviewed by the Department because they were still actively grieving the loss of their son and were unable to discuss the incident that led to his death again. This investigator observed a child to be in the home who appeared to be healthy. The family declined to identify this child.

If child was hospitalized, describe (in detail) DCS involvement during hospitalization:

The Department received a referral on 08/19/2014 that stated that on 8/9/14 at 1641 hours I was dispatched to [REDACTED] reference to a possible drowning. Upon arrival [REDACTED] was in the process of transporting the victim later identified as [REDACTED]. Shortly after I arrived, I spoke with [REDACTED] who informed me that [REDACTED] and [REDACTED] were the first arriving officers. [REDACTED] explained to me that there were two children swimming in the pool and one of the boys found something on the floor of the pool and swam to the bottom and pulled the victim [REDACTED] to the surface of the water. [REDACTED] was removed from the water by [REDACTED] and CPR was started by [REDACTED] who is a Nurse Practitioner. CPR was continued by [REDACTED] and [REDACTED] until [REDACTED] arrived.

[REDACTED] fro CID were contacted and were interviewing everyone at the residence upon my arrival. I was informed that [REDACTED] was transported to [REDACTED] by [REDACTED]. I was told by [REDACTED] that there was a pool party at the residence hosted by [REDACTED] and at the time of the accident there were several people inside the residence. Later I was told by [REDACTED] that the complainant was [REDACTED] husband [REDACTED] and [REDACTED].

This case was assigned to [REDACTED] as a P1.

According to the autopsy and police report, [REDACTED] was described as deceased on August 9, 2014 at 5:45 p.m. [REDACTED] cause of death is listed as accidental drowning. The Autopsy was performed on August 10, 2014 at 8:30 by County Medical Examiner [REDACTED].

The Investigators involved in this case included the following:  
 [REDACTED], Department of Children's Services Investigator 3

The Alleged Perpetrator was listed as unknown in this case and there was no specific person identified during the investigation as the Alleged Perpetrator

children who were in the pool. The adults at the party, which included Registered Nurse immediately, ran to the child's aid trying to revive him.

DCS policy defines Fatality/Near Fatality as any unexplained death of a child when the cause of death is unknown or pending an autopsy report. Any child death caused by abuse resulting from direct action of the child's caretaker or the consequence of the child's caretaker's failure to stop another person's direct action that resulted in the death of a child. Child fatalities are always treated as severe child abuse. Any child death that is the result of the caretaker's failure to meet child care responsibilities. Neglect death is always treated as severe child abuse. There was no evidence that suggested that the child's death was unexplainable. The autopsy did not indicate that the child's death was due to an act by a caretaker. Put a brief synopsis of the interviews of the event.

The Alleged Perpetrator was listed as unknown and there was no indication that a specific individual did act appropriately at the time of the incident.

There is not a preponderance of evidence to substantiate the allegation OF Neglect Death.

The case was presented to CPIT on 8/20/14 and the Child Protective Investigation Team agreed that the case be classified as Allegations Unsubstantiated/Perpetrator Unsubstantiated.

This 740 will be completed and the case will be submitted for closure.

According to the police report [REDACTED] written by [REDACTED] a birthday/swimming party was held at a family friends' home located at [REDACTED]. It was reported that two of the children at the party started swimming in the pool and one of the child felt something at the bottom of the pool and dove to the bottom where he found [REDACTED]. Mrs. [REDACTED] continued chest compressions and CPR until paramedics arrived.

Law Enforcement arrived and took statements from individuals that were at the party. Law Enforcement also took pictures of the environment in which the party was held. Measurements of the pool were taken and it was found to be under 5 feet deep.

A copy of the autopsy will be obtained once completed and placed in the child's file under the Investigation/Assessment section.
